THE STORY COLONIAL OF THE REUNION

**A NUMBER OF 8 SPECIAL PAGES
ON THE HISTORY OF INDEPENDENTIST
MOVEMENT OF THE REUNION
ONE NUMBER IN 4 EDITIONS
KREOL - FRANCAIS
ENGLISH - ESPANOL**

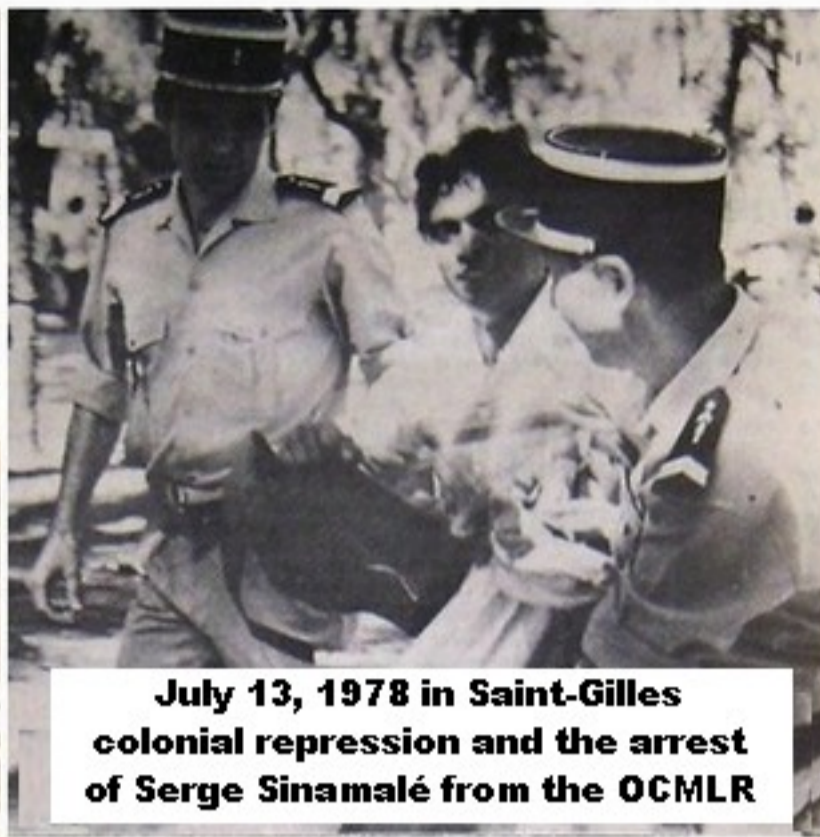

Some say that today's repression is not comparable to that of the time before. At the time we were not joking, police violence was common, you quickly found yourself in prison, you were kept in the eye. There was a political police that watched all your actions, if you had the misfortune to fight for your freedom and that of your country. When you were an anti-colonialist, a communist, or just someone who bothered them, who denounced the colonial system, the police didn't make a neighborhood, General Intelligence treats you like a dangerous terrorist. For those who resisted, for some until today, they had courage.

Today they have other means to control you, there is a whole judicial arsenal, even the most liberticidal. But those who are the most dangerous in our struggle for independence are the false friends, those who speak like us, they are Reunionese like ourselves, but are there to continue to take us into the precipice. They make it look like they are fighting for the Reunionese, but in reality they want to continue to take advantage of France's subsidies. They are treats, they call themselves 974, a colonial number with The Mahavéli in hand. These people will be the first to escape at the first cannon shot on the settler's boats.

THE STORY COLONIAL OF THE REUNION

Kabar under the filaos ...

July 13, 1978 in Saint-Gilles colonial repression and the arrest of Serge Sinamalé from the OCMLR

... colonial Court

The picnic of the independence movement was violently repressed by the mobile guards of the gendarmerie on the order of the representative of the French colonial state the independence activists resisted and responded to colonial aggression

Claude Allier was also embarked to be taken to the Etang Saint-Paul gendarmerie camp

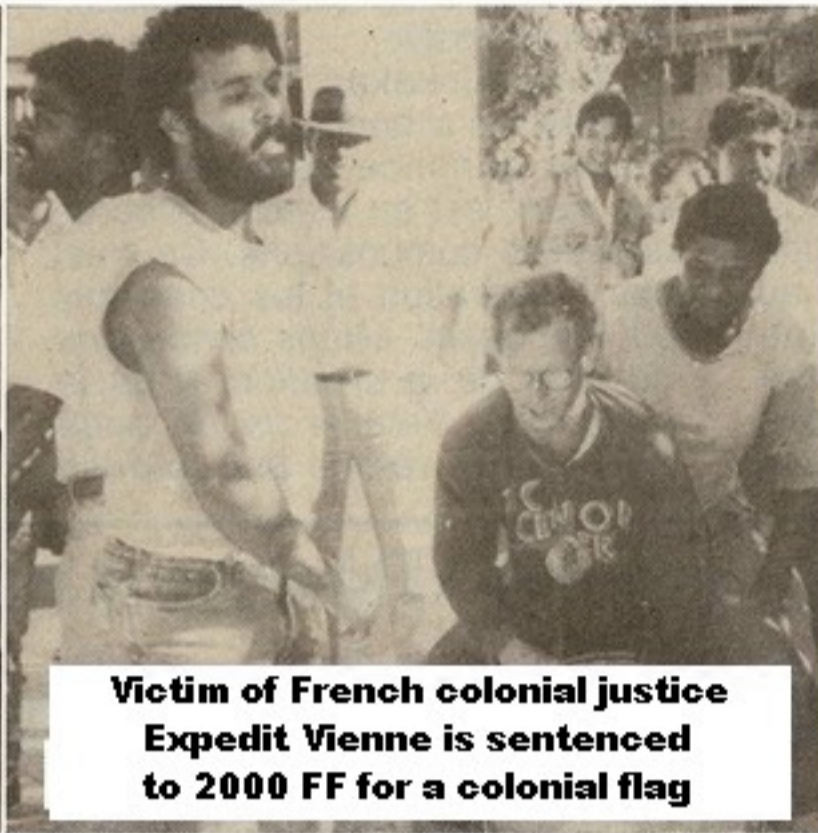

Serge Sinamalé, founder of the Reunion independence movement, leader of the OCMLR then of the MIR, victim of colonial repression

[July 13, 1978] - During a picnic of the independence movement under the filaos of Saint-Gilles Les-Bains, the gendarmes bluntly bludgeon the 300 militants (and their families) present at that time. The comrades resisted and responded to colonial aggression. The leader of the OCMLR (Organization Communiste Marxiste-Léniniste de La Réunion) Serge Sinamalé and comrade Claude Allier were arrested and brought before the Prosecutor the same evening. They will be sentenced to 15 days in prison and to 2000 francs in fines.

THE STORY COLONIAL OF THE REUNION

Resistance ...

**Victim of French colonial justice
Expedit Vienne is sentenced
to 2000 FF for a colonial flag**

... to colonialism

Expedit Vienne and his comrades in front of the criminal court of Saint-Pierre on August 11, 1989 prosecuted for having burned a French colonial flag during the military parade of July 13, 1989, in front of the civil and military officials of the French colonial state

**The French colonial flag burned
in front of the Tribunal as on the
evening of the military parade**

**Unfailing solidarity with comrade Expedit
Vienne, a true freedom fighter
for the independence of Reunion Island**

[July 13, 1989] - During a military parade of the French colonial armed forces in the south of the island, two independence activists, Expedit Vienne and Bernard Ivaha burn the French skin, to denounce the colonial situation of Reunion. They are arrested and placed in police custody at the Saint-Pierre police station, they will be fined 2,000 francs. Our two comrades are farmers who claim the right to land, faced with the control of the SAFER, on Reunion's farmland.

THE STORY COLONIAL OF THE REUNION

AN INDEFECTIBLE SUPPORT FROM JAMAHIRIYA LYBIENNE TO THE FIGHT OF THE REUNION PEOPLE TO SELF-DETERMINATION AND INDEPENDENCE

SERGE SINAMALE HAD THE OPPORTUNITY TO MAKE THE VOICE OF THE INDEPENDENT MEETINGS HEARD AT THE INTERNATIONAL CONFERENCE CENTER OF TRIPOLI ON MARCH 15, 1986

ONE YEAR LATER ON MAY 4, 1987 HE WAS RECEIVED BY COLONEL GADHAFI WITH THE HONORS OF A HEAD OF STATE

The Reunionese independentists of the MIR (Movement for the Independence of Reunion) headed by Serge Sinamalé, have visited Libya on several occasions (1985-1988). One of the highlights of these trips was the meeting in the tent - for three hours - with Colonel Gaddafi. But the other highlight, which had so far not been made public, was Serge Sinamalé's intervention at the International Conference Center of Tripoli, in front of the representatives of many countries, organizations and liberation movements.

In his intervention, Serge Sinamalé immediately addressed the participants by bringing them "the fraternal greetings of all the revolutionaries of Reunion who refuse the occupation of our country by French imperialism.

On behalf of all Reunionese who refuse the exploitation in all forms, I greet the brothers, present here, from the four corners of the planet, brothers who have defied imperialism and its servants, to answer the call of Jamahiriya".

OPPRESSION AND RESISTANCE

Continuing on the situation of Réunion at the time of slavery, he affirmed "When there is oppression, there is always resistance. During the period of slavery, the slaves resisted with all their might against their enslavement, for the freedom. Thousands of blacks fled the plantations, took refuge in our mountains and waged fierce resistance against the white settlers for more than a century and a half. Later in

the long colonial night men and women continued the struggle in various forms against the colonial system through strikes and demonstrations.

Today we are the heirs of our glorious ancestors, the heirs of all these men and women who never accepted oppression.

In our turn, we have started the liberation struggle, the national liberation struggle".

IMPERIALISM OUR COMMON ENEMY

Speaking of the great colonial powers, he declared that "imperialism is a chain of oppression that binds the world,

world a chain where every link is welded together. This is the strength of our common enemy."

COLONEL GADHAFI SHOWED US THE WAY FORWARD

Finally, ending his speech he hammered "Do we not dream of changing the world? Do we not dream of building a fraternal world, without oppression, without famine, without hatred and without war? This world without hatred and without war does not is not a utopia. Colonel Kadhafi in his speech, showed us the way forward. We fully adhere to the principles of his speech and to all of his proposals".

On their return from a second trip to Libya on January 25, 1986 (a few days before the clash with Jean-Baptiste Ponama on February 2, 1986) several comrades were arrested by the French colonial police.

Arrests to be compared with the positioning of the faction around Jean-Baptiste Ponama and the betrayals that followed. The objective is to divide the Reunion Island independence movement and directly attack its leader Serge Sinamalé.

THE FIGHT GOES ON

The maneuver failed and the fight for independence continued unabated, until today with the LPLP.

Contacts with the various organizations and movements abroad continued and strengthened, Serge Sinamalé continued to defend our fight for the decolonization of our country.

The French colonial state let the Covid-19 infect us !

Since the beginning of September Reunion has been classified in the red zone, according to the nomenclature of the colonial state in the fight against Covid-19. Instead of protecting the people, the Government's strategy is to let everyone be infected, and then be immunized, bypassing those who will die. These irresponsible people of the French colonial state, Prefect, ARS and elected officials will have to be accountable to the people of Reunion, they have put the capitalist economy before the health of our people.

COVID-19 HAS BEEN THE PEOPLE OF REUNION IN DANGER

The irresponsibility of the French colonial authorities, Prefect, ARS and elected officials included have done nothing to stop the epidemic, which is spreading everywhere in our country, since they lifted the containment on May 11, 2020. With the effective reopening of the airport with France and Mayotte, the epidemic soaring.

In March, when there was containment, there was no real epidemic. Since then they have implemented health security measures, they even admit having put people in danger, especially the most fragile (hyper tension, diabetic, heart failure, lung and kidney problems ...). Before the situation worsens, it is absolutely necessary to reinstate the quarantine for the arrivals, they cannot put the economy before the health of the people.

Take care that the anger of the people does not awaken. We urgently need to put our people to safety against Covid-19. Classification in the red zone forces people to change the way they live. He lets certain events unfold, which attract a lot of people. The lure of gain and cronyism take precedence over the health of the people. They must take their responsibility and stop the parties and demonstrations ...

We have to close the airport for a while.

DOCTORS ARE DIVIDED

Some doctors are for a strategy, others for the opposite, they are not clear on the protective instructions to be given.

The information of the moment, let everyone contaminate themselves, the greatest specialists have already given their agreements. It is putting our country and the people of Reunion even more in danger, especially since the reopening of the airport between Reunion and France.

There is a real debate between those who are against the end of the quarantine and the others. A real danger for the population.

They are divided in the medical world, everyone wants to impose their recommendations, but in the end it is always the colonial government, which will always have the last word, putting the economy first instead of people's health.

WEARING THE MASK THE GOOD SOLUTION ?

Wearing a mask is starting to be a problem, there are those who are for and those who are against. People say they don't have the plague to wear the mask, and they have a lot of questions. The mask really protects, are there not long term risks on our immune defenses and make us more fragile in the face of germs. Continuous application of solutions to the hands can also be problematic.

A REMEDY AGAINST COVID-19

We get the impression that the scientists who are working to find a vaccine are dragging their feet and are complicit with the Governments of the great powers. What they want is to change people, to change the way they live. By continuing on this path, they will eventually push people into revolt. In the event that a vaccine is finally found, it will be necessary to be vigilant before its application. Why wouldn't the officials of the colonial state test them first.

There are also the remedies of our elders who have treated them for all ills, since always. They have passed down their remedies from generation to generation. But where are they, to find together a real remedy to fight against Covid-19. They are perhaps trapped by the big pharmaceutical companies, which more and more monopolize their old remedies to market them. Since the start of the epidemic, no one has appeared on television to provide solutions. For information, the Russians have already started testing their vaccine,

now we have to wait for the results ...

NUMBERS ANNOUNCED DOES ARE NOT RELIABLE

Since the Covid-19 arrived in our country, faced with the responsibility of the colonial administration, the ARS have never said how many people have been healed, the number of deaths, how we heal and what are the consequences. The system locks everything, even the media follow like sheep, none of them have investigated for fear of reprisals. One day the truth will eventually come out. It's always like that, in emergency situations we lie to the people. What you need to know, the Covid-19 continues to spread and infect many people. Faced with their irresponsibility, the epidemic will eventually become general. More than ever you have to continue - even if some say it is not dangerous - continue to protect yourself and your family, the virus is here now, you have to live with it and rely only on yourself.

WHEN A COLONIAL MINISTER DO NOT PUT ON THE MASK

Remember when the Minister of Colonies came as a tourist at the beginning of September, what a bad example, he did not wear a mask, when he was with the system's jacks. As they say, sweep your front door before you go and tell others what to do. Gatherings of a maximum of 10 people do not make sense, when you know what is going on in shops, schools or even at family celebrations. Stop taking people for fools, either block everything or everyone does as they see fit.

DO NOT ENTER IN PSYCHOSIS

Our people must not be afraid and stop living, we must not believe everything the Government and the media say. They know that plunging people into psychosis all day long, they have other interests to defend. Some even say it's just the flu, true or not true? Until the epidemic is present and those who are more fragile have a chance of dying. What we know, we must protect ourselves, at least in memory of those who have died since the start of the epidemic at the end of 2019. We won't be able to a long

(Continued on page 6)

(Continued from page 5)

times with prohibitions, anger will end up making people fight against each other and lose their heads for a mask. Even if we do not really know the virus, we should not fall into psychosis, but take the necessary precautions to contain it.

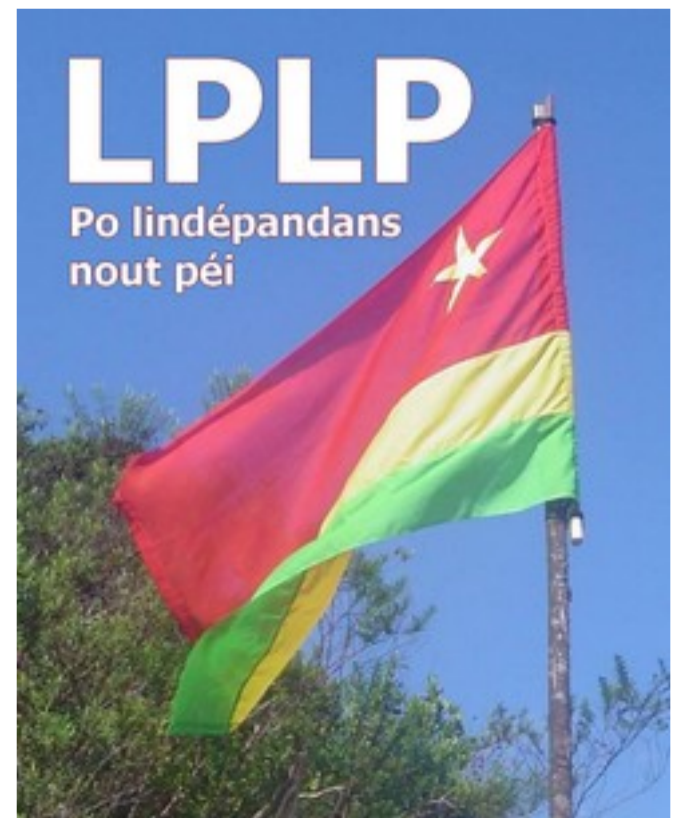

REUNIONESE BE CAREFUL

Reunionese, be vigilant and do not hesitate to shout your anger against this incompetent colonial administration, we will end up dying like flies, in view of their stubbornness in not wanting to protect the people of Reunion. The first thing he should have done, in order not to be classified in the red zone, would have been to close the airport to prevent the spread of Covid-19, the economy must in no way come before the health of people. During this time certain great events continue, proving the collusion of the colonial state with certain milieu.

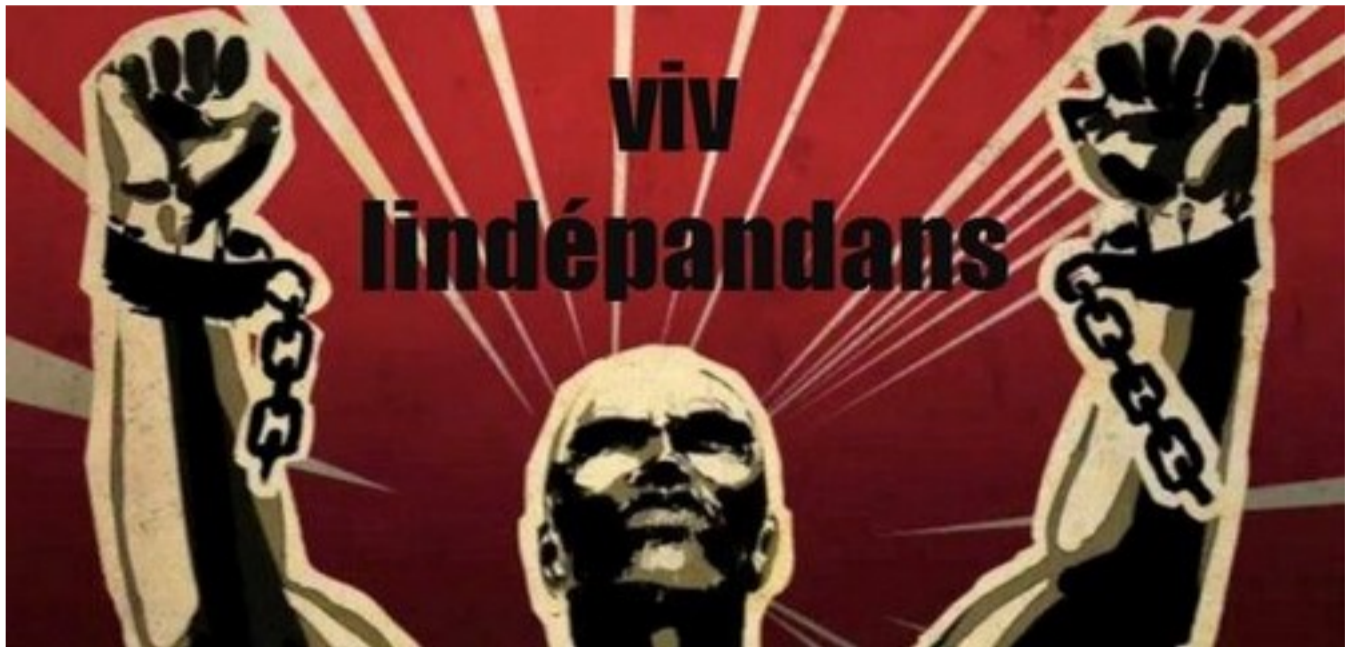

We said what had to be done, but the administration turned a deaf ear, now we must denounce it wherever we can.

WHEN WE HAVE INDEPENDENCE WE WILL BE THE ONLY ONE TO DECIDE OF OUR SECURITY

The independent and free Reunion could have put all Reunionese in safety, just look at what we are doing in the independent countries of the area to protect both their population and their economy. Tomorrow, all those who were responsible for this health disaster in our country, will have to be held accountable for their irresponsibility. The colonial administration and their servants are the only ones responsible for this situation.

LINDEPANDANS EK LIBERTE FIRST INDEPENDANTIST NEWSPAPER

OCMLR - MPLR

This year in September, 43 years ago, the first independentist newspaper appeared, It was a monthly. It was the journal of the OCMLR (Organization Communiste Marxiste-Léniniste de La Réunion) which later became that of the MPLR (Movement for the Independence of La Réunion). This newspaper was published until February 1980, at the time of MIR there was no no more newspaper. The headline of the first edition in September 1977 "Viv Larénion lib" denounced the colonial system, favored our language and advocated a single writing for Kreol. The headline of the latest issue "Isi Larénion nana in pèp, nana in nasion". 19 issues have appeared, in tabloid format, sold by activists, we could subscribe, we found it in certain shops and bookstores.

EVENT FOR ALL WHO FIGHT FOR FREEDOM

To remember this date, Fanal releases an 8 pages (usually 4 pages) and in 4 editions. It is the first time in the history of the written press of our country that a newspaper is published in 4 languages. It is an event, an honor, a pride for all the separatists of Reunion.

Fanal our newspaper has entered the 8th year of publication, there has been no interruption, It is the first independentist newspaper to appear for so long until today.

Like any newspaper, Fanal needs your support, your solidarity is welcome. it will perpetuate the output of our newspaper. Get in touch by email: fanal@lorganizasion.org or on the LPLP Facebook and Twitter pages.

Push-back between 974 on the Manapany side Saint Joseph

A reflection of the State of Reunion, to understand the push-pull between the town of Saint-Joseph and the pro-French activists of the Azalés roundabout in Le Tampon. On the one hand, the Municipality of Saint-Joseph has a project to privatize the Manapany picnic area, to make a 4-star hotel according to rumors. For the moment this project is confidential, very little information has come out, it will be necessary to be vigilant. For information, this site is known as a traditional picnic spot for Reunion people. It is true that it had been closed for some time and that the Town Hall would have bought it for its internal use. Strange all the same this privatization. When the Azalés roundabout activists got wind of the case, they came to express their disapproval and those for several Sundays in a row. They contacted the Mayor, who turned a deaf ear. Where things started to get tense, Tuesday September 22, 2020, is when the Municipality closed the site. That day, there was a meeting of the promoters of the project, it was even said that there was talk of another project. In reality, it was a meeting to discuss the problem of the supply of rocks in the Langevin river. A meeting that can lead to questions, when we know that the work continued on the site. The supporters of colonial power know how to protect themselves, the

COLONIALIST IRRESPONSIBILITY LOOK AT WHAT WE HAVE DONE WITH OUR COUNTRY

The increase in our population is not linked only to births, but also due to the influx of people arriving in our country every day. Whether they are those who come from France, or from the former French colonies, or even all the others who come from territories still colonized, such as Mayotte, Guyana, Martinique, Guadeloupe, Corsica, Tahiti, Kanaky ... with the objective - and we are not told - to change the demographic ratio in our country. We let it happen, if we are not vigilant, we will end up being a minority in our country. Let us not forget the French colonialist deportation, put in place since the departmentalization for make us invisible. Reunion will not be able to continue to

gendarmes were numerous, the henchmen also. Who said those days were over? For their part, the activists of the Azalés roundabout continued to ask for explanations on the project, but the Municipality did not give a damn. Things started to degenerate, even the Mayor and elected officials had misplaced words. Things do not change, those who govern us have always known how to use the people to be elected, to better humiliate them afterwards. This is the colonial reality of our country. The Reunionese State in its fight, reminds that to destroy the colonial system, we must stop wasting our energy, we must stand up to free our country and for independence. This is the only solution to eradicate the colonial system. For those who have not understood and who continue on this path, things will not move forward. Look at what happened with the straw huts in Saint-Gilles, where many people were disillusioned afterwards. It will always be the eternal restart, with money still in the background. For the State of Reunion, what happened is a push-back between faction of the colonial system in place. As we have always said, our support will go only to the citizens of Reunion, the true anti-colonialists with a vision for Reunion and not for those who want even more of France.

receive all the flow coming from outside, when our country is independent, those who will be in charge, will have to do what is necessary to readjust this policy. Today, in France, there are more than 250 miles from Réunion and almost 50 miles scattered around the world. In our country, there are about 900 thousand inhabitants, but how many are there, to maintain the colonial system. And here we are not talking about stolen children, those they deported in the 60s and 80s. We are talking about more than 2000 for those we have found, and for the others? Tomorrow belongs to us, we will do what is necessary to know the truth and to condemn France.

FANAL IN BRIEF PEOPLE LIFE

Where are the Reunionese doctors?

Today when you look at all the sectors that come under medicine, there are only doctors who come from outside, who are in our hospitals, in general medicine, among specialists, physiotherapists, nurses. Why can't we find Reunionese doctors, where are they? They are not interested in working in a country, or is it the result of a colonial policy organized to prevent them from practicing in their country. Reunion is invisible in all the cogs of the colonial administration, the colonial trap worked well. That's why, tomorrow when Reunion is liberated, all the doctors who have been prevented from practicing in the country will have to come back to take over the entire medical organization of our country, train all the new doctors. money should no longer be the engine, that they regain their patriotic and united fiber.

TANPON KONTKOLONIAL A NEW WEBSITE OF THE REUNION STATE

"In sàl pèp in sàl nasyon anou minm réioné nout libèrté tanou sa minm i donn anou la fors lèv d'obout"

It is a new website of the Reunion State, a website of the Tampon Communal Anticolonial Council. <http://tanpon.kontkolonial.org>

On this site you will find all the information about the Municipality of Tam-pon and its history. Come visit, if you have any comments or questions, please send a message to the email address : tanpon@kontkolonial.org

Other websites of the Reunion State will soon see the light of day. The colonial system will be denounced in all neighborhoods and we will be on the side of all those in need.

FANAL IN BRIEF PEOPLE LIFE

The Covid-19 problem

The French colonial state let the Covid-19 enter our country, now it is the poorest who are deprived of their leisure.

Before this epidemic, it was their only pleasure to escape from their prison buildings. The clubs of the 3rd age which used to go out during the holidays, are obliged to stay alone at home, it was a pastime for them to get out of their isolation.

It is difficult today to find a life as before, we will have to find other solutions to get them out in small groups, they cannot remain locked up indefinitely.

There are also those who used to take a tour of the island, again it is not easy. they will end up going crazy in their rabbit hut. Those who have the means have not changed their habits. This is how those who lead us have brought us to their knees.

No other choice

Whether we want it or not we have no choice but to live with covid-19 today. Since the colonial administration opened the doors wide for him to return, our people have changed their way of life, it is for this that we are doomed to fundamentally change our way of life every day, without becoming paranoid.

A single card to take the bus

Those responsible for the administration colonial transport system, which

Carsud, kar Ouest, Citalis, Alternéo, Car Jaune ...) those who take the buses are the poorest fens, those who cannot afford to buy a car or do not have a license or are elderly. Instead of making a card for each company with a different price, make people's lives easier, set up a card and a single price, for the main lines the same companies, to differentiate clearly from those which serve the gaps, the movement of people will thus be facilitated. Tomorrow when our country is independent, we will have to review all of this.

It is time for those responsible for the colonial system to review their entire travel policy for the most disadvantaged, it is the only way people will find buses attractive, secure and protected. But let's not dream, it is not in the daily life of our decision-makers, they do not take public transport.

The law of 1946 responsible for the misfortunes of our country

The illegal departmental status is solely responsible for the catastrophic situation in which our country finds itself. This colonial institution only benefits those who are rich and elected officials complicit in the system.

Let us not forget the French colonial capitalist model, an economy which respects nothing, where the richest rule. The work carried out by the Reunionese state will put an end to all this and everyone will regain their dignity in a free country.

THE CAF A TOOL OF COLONIAL ASSISTANCE

Everything was put in place at the time of departmentalization in 1946, before it was the dispensaries in the largest municipalities that took care of the most needy.

Today it is the Family Allowance Fund which has taken up the torch, its objective to give allowances to those who have little means.

It is a colonial tool that has trapped people in the cycle of assistantship, it pays the sums necessary to pay rent, child allowances and everything that falls under its jurisdiction.

But it is a double-edged sword and of repression. Since its inception, many people have wanted to have even more by having more children, they fell into the trap of easy money, these people needed help, especially to pay their rent and are found in even more problem.

It is a colonial system organized so that the Reunionese is maintained in the assistantship. Before most people had their small houses and did not depend on the assistantship. Even those who rented their houses always found a way to pay for it, doing everything they could to get a job.

Tomorrow when the State of Reunion settles in, each person will have the right to a house and a piece of land, water, electricity and everything related to health will be free. There will be a whole organization to put in place. Read the Constitution of the Reunion State on the website: <http://gran-konsej.kontkolonial.org/>

WEBSITE OF THE INDEPENDANTIST REUNIONESE MOVEMENT - LPLP : <http://www.lorganizasion.org>

The Reunionese independence movement has had a website since January this year, you will find all the necessary information, news, archives and a lot of information on the history of the movement. You will also find all the issues of the Fanal newspaper for download, since the first issue in February 2013. There are also other important documents to download. Soon we will also upload documents and journals of the OCMR - MPLR - MIR online. A way to make our history known and to share it with all those who wish it, to make us move forward even faster. It is only like this that the people of Reunion will learn their history and know all those who really fought for our freedom.
