

DiNotte Ultra-Tail light – So many people who are not familiar with the DiNotte philosophy questioned our desire to build the ultimate tail light. Industry professionals questioned the need for a tail light that costs five to ten times the traditional light until they saw this light in action. Those who understood DiNotte realized our commitment to safety and performance which drove us to build the ultimate tail light. If you have ever experienced a motorist who has ignored you on the road, this light is for you. Prepare to change driver's habits! (batteries not included) MSRP \$129.00 USD
