

# NetValet App

## Download & Setup NetValet App

1. Find and download the NetValet App in the App Store or Google Play Store
2. Open up the app and sign in with your Google or Facebook credentials.

When asked for access to your email address and basic info, you must choose 'allow'.

3. Next, scan the QR barcode to assign your Gigacenter to your NetValet app.

Look for the barcode on the side of the unit.

4. Select "Home Network" or "Guest Network" to set your name and password for each.
