

# ISLAND PANEL QUILT

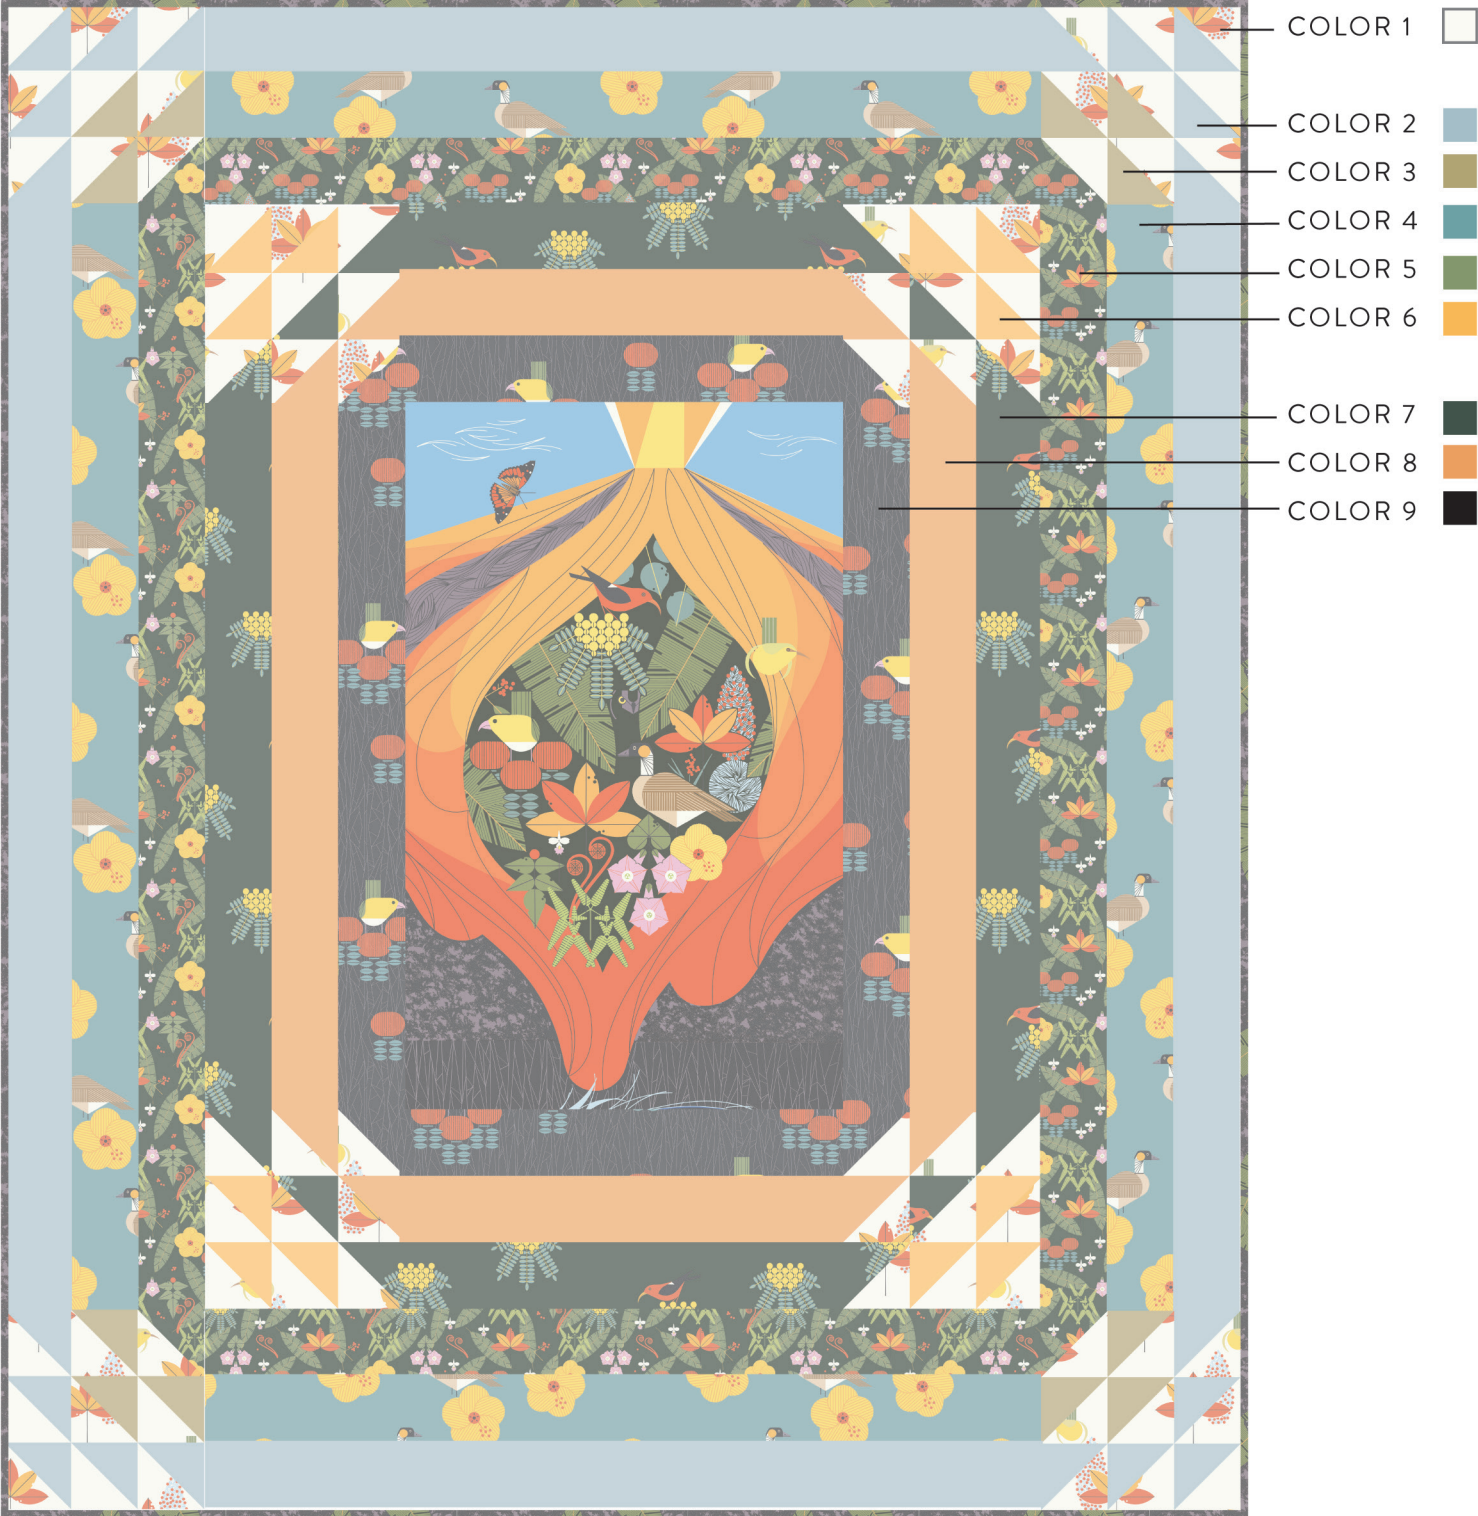

Featuring fabric from Charley Harper Hawaiian Volcanoes

# ISLAND PANEL QUILT

A quick and fun quilt to showcase panels or large scale focal prints using strips and half square triangles! Instructions are set up for panels measuring 20 x 32", but can be easily modified to accommodate any size by adjusting the size of your strip units that frame the center. Finished sample quilt measures 56 x 66". Pattern uses a 1/4" seam allowance for all seams and assumes you have some basic quilting knowledge.

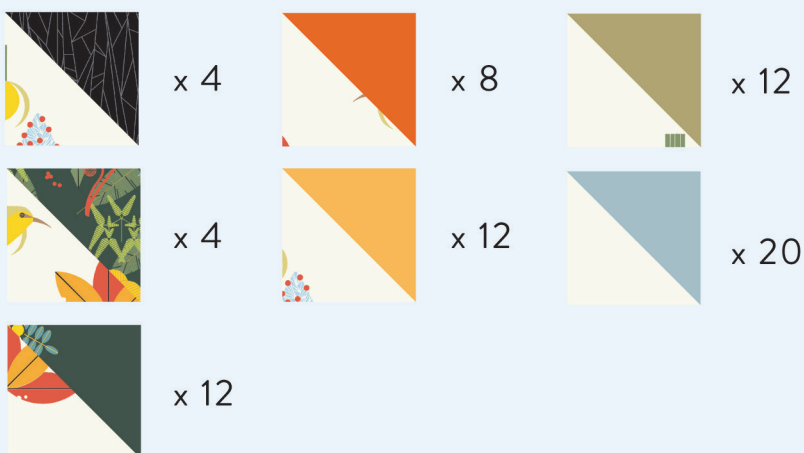

## COLOR GUIDE

## YARDAGE & CUTTING CHART

<b>C1</b> (1/2 YD)		(18) 6" squares	
<b>C2</b> (2/3 YD)		(5) 6" squares	(5) 3.5" x WOF strips
<b>C3</b> (1/4 YD)		(3) 6" squares	
<b>C4</b> (1/2 YD)			(5) 3.5" x WOF strips
<b>C5</b> (2/3 YD)		(1) 6" square	(5) 3.5" x WOF strips
<b>C6</b> (1/4 YD)		(3) 6" squares	
<b>C7</b> (1/2 YD)		(3) 6" squares	(3) 3.5" X WOF strips
<b>C8</b> (1/2 YD)		(2) 6" squares	(3) 3.5" X WOF strips
<b>C9</b> (1/2 YD)		(1) 6" square	(3) 3.5" X WOF strips

## HALF SQUARE TRIANGLES

## PANEL

Cut panel or focal fabric to 20.5" wide by 32.5" tall. Modifying this measurement is very easy, but keep in mind your inner and outer border will need to be adjusted.

For the binding, I cut 2.5" strips from the rest of the panel piece. →

## GLOSSARY

WOF = width of fabric  
 HST = half square triangle  
 SA = seam allowance  
 // = fabric length continues

## TOOLS

- Rotary mat & cutter
- Long ruler
- Minimum 6" square (very helpful!)
- Coordinating thread
- Iron & mat for pressing

## STRIPS

Sew together (3) WOF strips of colors **2, 4, 5, 7, 8,** and **9** on the short side. Press SA as desired. You will have (2) remaining WOF strips of colors **2, 4,** and **5.**

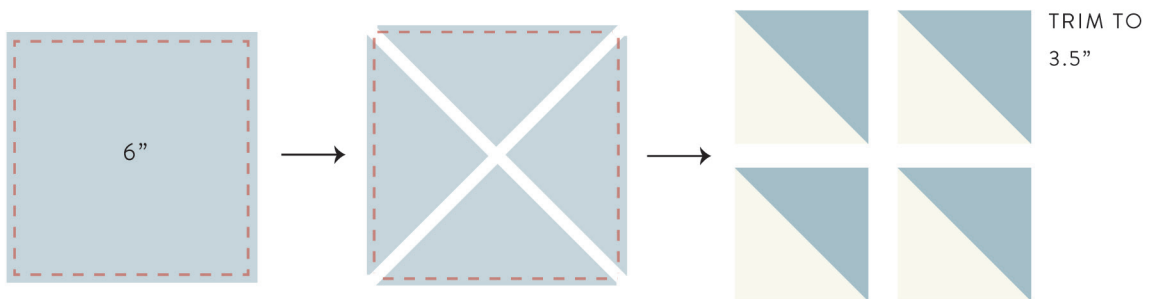

Sew together your long strips and remaining WOF strips of inner and outer borders together:

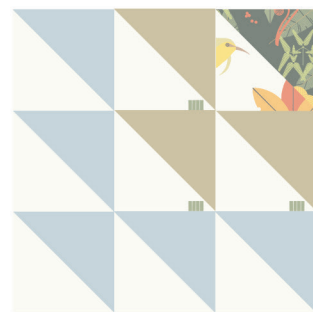

These will be cut down further, but wait until the final assembly before trimming.

## HALF SQUARE TRIANGLES

Four at a time style! With two 6" squares, (one always being Color 1, which acts as the background) right sides facing, sew all the way around the outer edge, pivoting at the corners. Cut the squares into four pieces along the diagonal. Press each square open and SA to the darker fabric. Trim each HST to 3.5".  
Voila! 4 HST from two squares!

Use your HST to create the corner units as shown. You need (4) of each.

## ASSEMBLY

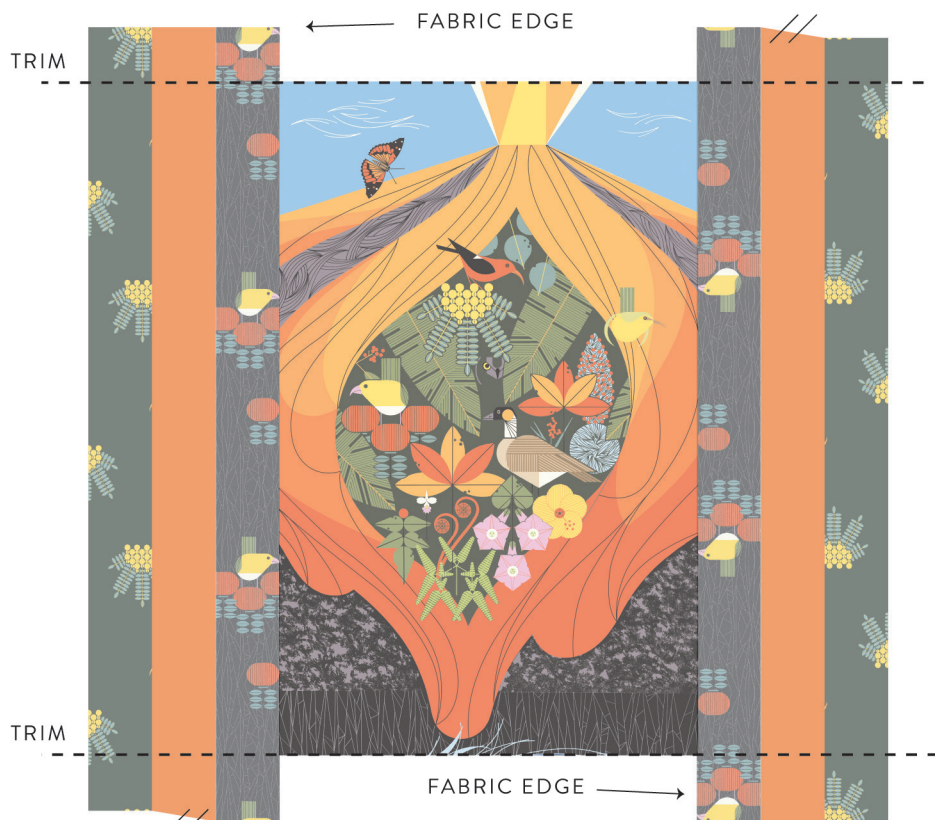

Assemble your quilt top with sewing your long, pieced inner strip units to the vertical sides of your panel. Sew one side, keeping the whole unit intact, and trimming off the excess. Keep your strips long and leaving a bit extra on the top as shown. Trim the top and bottom back to 32.5".

From the remaining strip unit, cut two pieces that measure 20.5" wide. Sew the appropriate HST units to each end, and sew onto the top and bottom of the panel.

Repeat the same steps to assemble your outside border, the only difference is you will cut the top and bottom strip units at 38" wide.

Quilt and bind to finish!

We can't wait to see what cool panel quilts and combinations you make! We love your creativity! As always, if you spot an error or need additional help or questions, email us at [info@birchfabrics.com](mailto:info@birchfabrics.com)
