WOF = Width of Fabric: cotton broadcloth commonly used for quilting is 42"

HST = Half Square Triangle

Seam Allowance = ¼ inch

6. Sew blocks into 17 rows of 12, then sew rows together as seen in the quilt diagram. Iron seams in each row the opposite direction as the row next to it so the seams nestle together – this allows the quilt top to lay flat and have less bulk.

FINISHING THE QUILT

1. Layer the backing wrong side up, the batting and quilt top right side up. Baste as desired. Quilt as desired.

2. Trim the excess batting and backing and square up the quilt.
3. Join the binding strips together with a diagonal seam. Trim and press seams open.
4. Once all of the strips are sewn together, fold in half, wrong sides together, and press flat to create the binding. Sew binding to your quilt by lining up the raw edges.
5. After binding is sewn to your quilt, fold over and either machine stitch or hand stitch the binding to finish off the edges of the quilt. **For an in depth tutorial on How To Bind A Quilt, visit bit.ly/quilt-binding**
