Winton Churchill is founder of Churchill Method, an international training and consulting company. His firm helps clients find ways to put their skills, services, products, and career experience on the global market by tapping into the 30% to 70% of opportunity most U.S.-only and Canada-only businesses and individuals leave on the table.

“By taking charge of their earning power, rather than waiting for governments, financial institutions, and employers to “right themselves,” the baby boomer generation now has the power and access to put their skills and abilities on the global market regardless of where they live or work now,” according to Winton.
