

FrameBoss™ XP_M

Power - Efficiency - Speed

 **Ramset™**

FrameBoss™ XPM

System Overview

The NEW FrameBoss™ XPM is a fully automatic Powder Actuated tool that can be configured with a magazine or in single shot format.

Feel the power and take advantage of the versatility of the new Ramset FrameBoss XPM. Configured with the magazine, the tool will fire collated pins up to 75mm, and in single shot format, fasteners up to to 100mm in length.

The System

Strip Loads

Industry standard charges

Spall Guard

Can be fitted to single shot fastener guide - protects from flying debris.

10 Pin Magazine (75mm Pins)

Increased fixing rates.

Power adjustment

Variable power adjustment allows for a reduction in the number of different strength charges required.

Ergonomic Cushioned Grip

Engineered Plastic Housing
Results in an extremely robust yet light tool that withstands rough jobsite treatment.

Trigger Lock
Extra protection against accidental actuations.

Automatic Piston Return

No manual cycling results in less operator fatigue, increased fixing rates and lower labour costs.

Hand Guard

Protects operators hands from flying debris and guards against accidental trigger actuation.

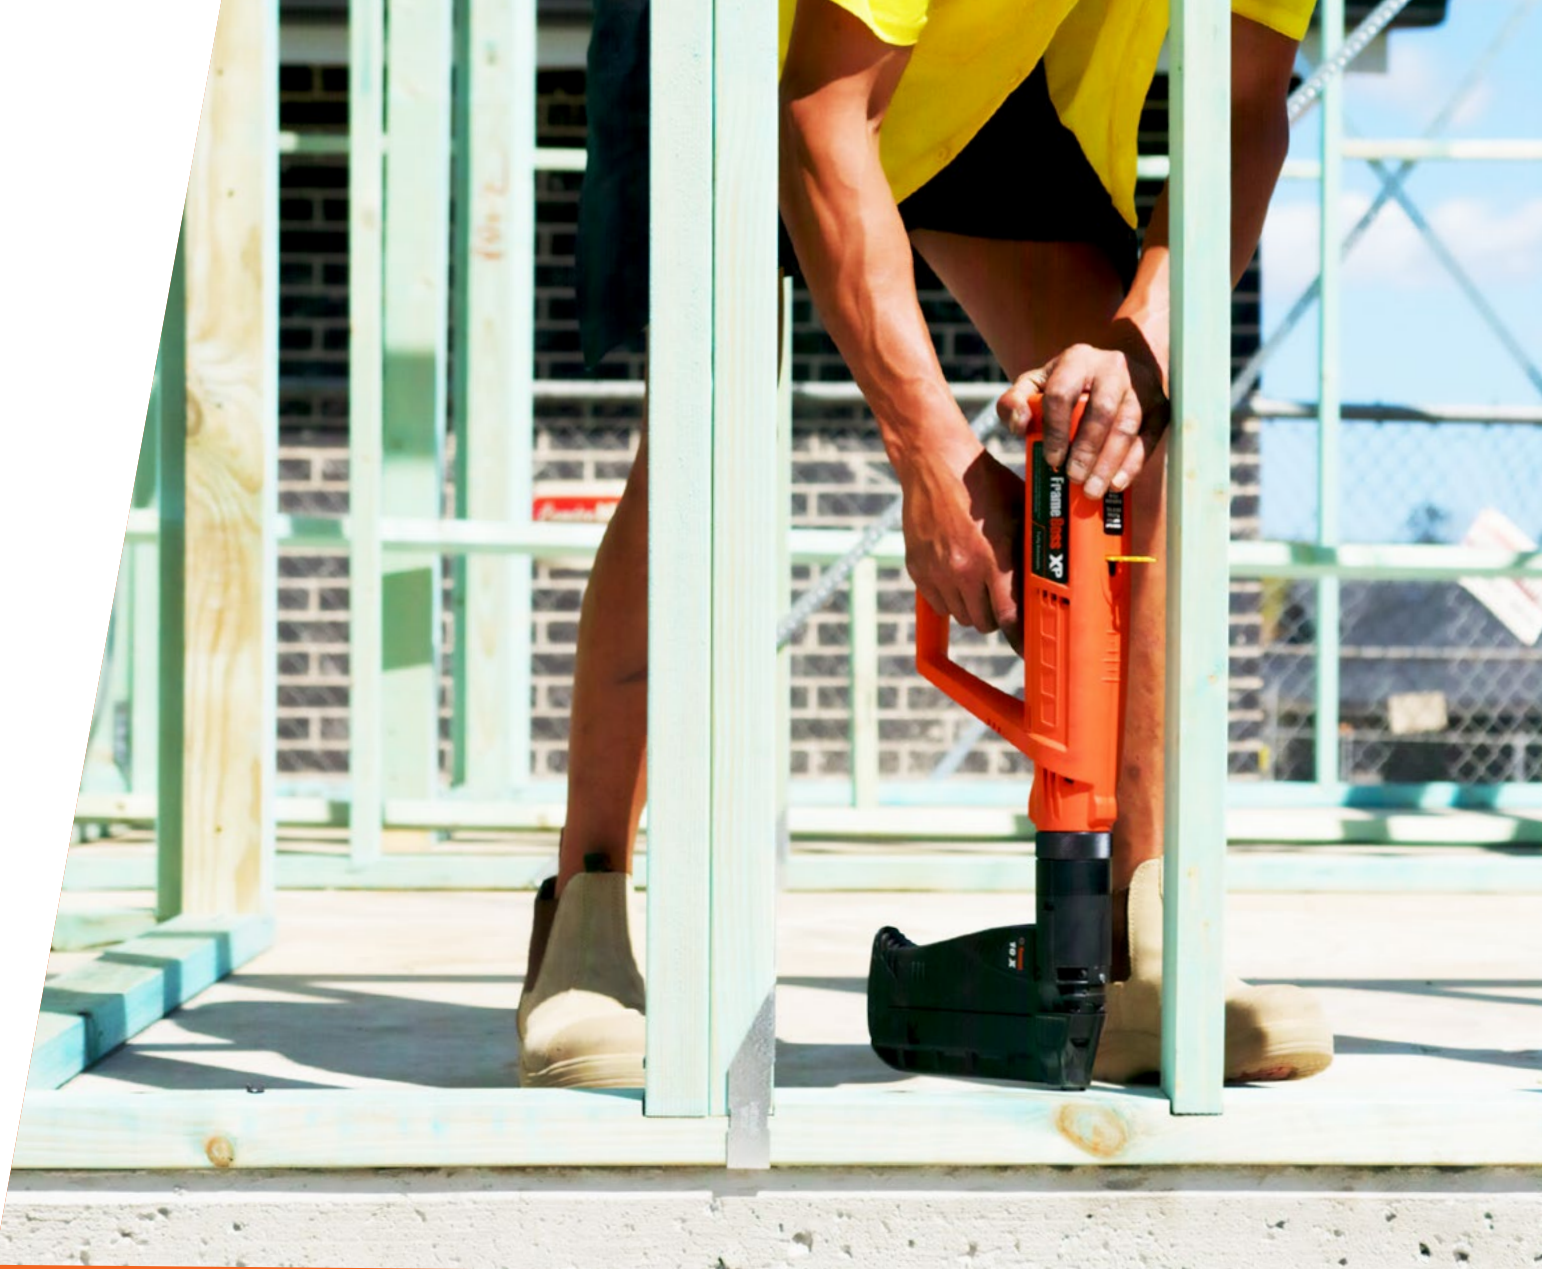

Extra Power

Increased power to 400J allows the tool to be used for a wider range of applications.

Adjustable Magazine

Magazine locks at 90° which allows the tool to be used in confined spaces.

The Specs

The power, speed and efficiency of the FrameBoss XPM delivers increased productivity and saves on installation costs.

Tool Specification

Weight	3.99kg with magazine 3.7kg without
Impact Force	400J
Fixing Capacity:	
Timber to Concrete	75mm
Timber to Steel	50mm
Metal to Concrete	3mm
Metal to Steel	3mm
Pin Capacity (Single shot)	up to 100mm
Pin Capacity (Magazine)	up to 75mm
Overall Length	525mm
Substrates	Concrete, Steel, Masonary
