### Texas Crop & Weather

The following specific livestock, crop and weather conditions were reported by Panhandle Extension directors: Except the far northeast corner of the region, soil-moisture levels were good. A slow snow melt during the past month resulted in deep penetration of moisture, which will be a good for spring crops. Warmer days helped wheat start to grow again. Producers were still trying to get into fields to prepare for upcoming planting of spring crops, but because of wet conditions, most were only able to speculate on what crops to plant. Cattle were in fair condition with some improvement as feedlots started to dry out and wheat fields became grazable again. Producers continued to provide supplemental feed to cattle on rangeland.

## **Hansford Manor Earns Designation As** One Of "America's Best Nursing Homes"

Hansford Manor has earned designation as one of "America's Best Nursing Homes" by U.S. News and World Report, in its February 2010 Special Issue on "Aging Well." The magazine is famous for its annual rating of "Best U.S. Colleges" and "Top 100 American Hospitals."

The Best Nursing Home selection is based on a ranking published on line by the Centers for Medicare and Medicaid Services (CMS), the federal agency which oversees these programs.

The CMS "Five-Star" rating system is based on facilities' staffing levels, inspection results, and performance on 24 "Quality Indicators," which compare data on all nursing home residents to state and national averages.

Quality Indicators include criteria such as pain management, occurrence of bedsores, prevalence of infections and med-

ication management, among others. US News and World Report also ranked the "Ten Best" states, and the "Ten Worst" states, based on the percentage of nursing homes designated "Five Star" within each state. Among the lowest ranking states is Texas, with only 9.7 percent of its 1126

homes earning a five-star rating. According to Hansford Manor Administrator Anne Snow, many in the eldercare industry have linked the quality of care in nursing homes to the amount each state pays for Medicaid-covered nursing home care, which varies widely from state to state. Texas has frequently been cited as one of the poorest-paying states, which may help explain its low ranking by US News and World Report.

Hansford Manor Director of Nursing Services, Janee Russell, RN, commented, "Studies have shown that the most influential factor in quality of care is low turnover among direct care staff. Many of our staff have been here for many years, growing up in Hansford County, and have long-standing, close relationships with residents, families, and

Hansford Manor

coworkers."

"We strive to show our staff the respect and appreciation they deserve," Russell continued, "and encourage their professional and personal growth in any way we can. Some have progressed from Nurse Aide to RN and others have transferred to

other departments to grow their skills and then have returned to the Manor. Our outstanding staff and amazing community support are what makes Hansford Manor one of America's best nursing homes."

Words from Faith & Grace

by Cecil R. Biggers, Lutheran Lay Minister

In the Season of Lent we are asked, "Who am I be-

coming?" as we study forgiveness in Joshua 5: 9-12.

Psalm 32, 2 Corinthians 5: 16-21, and Luke 15: 1-3a,

The people of Israel are camped at Gilgal after having

entered the Promised Land. Two things occur here, the

rite of circumcision is re-introduced as a sign of the peo-

ple recognizing that the land is the gift of God. (The

older generation who first performed circumcision

passed away in the desert) and the people celebrate the

Passover, in remembrance of God who led them to the

Promised Land. We are told that the "disgrace of Egypt

was rolled back at Gilgal. This "disgrace" was the dis-

God in the desert and longed for the pleasures of Egypt.

The occurrences at Gilgal are a sign of God's forgive-

ness. In fact the name given the site, Gilgal, is similar to

galloti which means 'rolled away' in Hebrew. The peo-

those whose transgression is forgiven, whose sin is cov-

frustrated with Paul because he does not have the pow

erful presence and demeanor that they expected from an

apostle; they are frustrated with Paul because he keeps

writing that he is coming, but he doesn't show up. Paul

responds by reminding the Corinthians that we no longer

see Christ in a human way; we now see the Christ of the

resurrection who has reconciled us with God! Those

who live 'in Christ' are part of a new creation, a creation

that is on-going. If Christ has forgiven us for our mis-

steps, then we must forgive others their missteps. Paul in

seeking reconciliation, teaches us much about 'forgive-

three parables--the lost sheep, the lost coin, and this

parable, the prodigal son. The Pharisees attitude was

There is rejoicing when one sinner is obliterated before

God." Jesus was teaching, that angels in heaven and

God, himself, rejoice when one sinner returns. When we

read this parable, the youngest son seems to affront the

father, "Give me my inheritance now!" Which is close

to, "I wish you were dead". (In the system of the day, the

eldest son got 2/3 of the father's estate, the youngest 1/3)

The father appears to us as indulgent; he divides his es

tate between his sons; the father can even appear to us as

foolish for allowing the request. The older son, who has

received the greatest part of the estate, appears unfor-

giving and resentful. The father appears highly credu-

he forgives him even before the son begs to be a servant

Consider that both of these sons are "lost", both misun-

derstand the working of grace. The story is unresolved

but we see the Father's love for his sons. God is like that

becoming" so that you may be forgiven and you may, in

### Perry to face White in November general election

AUSTIN — Gov. Rick Perry fought off two strong challengers in the March 2 Republican Party primary, positioning himself for an unprecedented third term as governor of Texas.

By drawing more than 50 percent of the vote, Perry avoided an April runoff with his closest challenger, U.S. Sen. Kay Bailey Hutchison, who received 30.3 percent. Newcomer Debra Medina of Wharton followed with 18.6 percent.

Combined voter turnout for the primaries was the highest since 1992, according to the Secretary of State's office, with an estimated 2.1 million ballots cast.

In the Democratic primary, Houston Mayor Bill White took 76 percent of the vote to Houston businessman Farouk Shami's nearly 13 percent, so it will be Perry versus White in the November general election.

Perry, already the longest-serving governor in Texas history, advanced from lieutenant governor to governor when George W. Bush left for the White House in January 2001. He was reelected in 2002 and 2006 and now looks forward to a record third full term, but White stands in his way.

Incumbent Lt. Gov. David Dewhurst, running unopposed in the GOP primary, will face Democrat Linda Chavez-Thompson in November.

Chavez-Thompson, a long-time labor activist, got 53 percent of the vote to former Travis County District Attorney Ronnie Earle's 34 percent. Coming in third was Austin delicatessen owner Marc Katz with 12 percent.

Other key matchups in statewide races will in-

Incumbent Republican Attorney General Greg Abbott versus Dallas Democrat Barbara Ann Radnofsky, a Houston attorney who challenged Hutchison for her U.S. Senate seat in 2006.

Incumbent State Comptroller Susan Combs ran unopposed in the GOP primary and no one ran for the office of comptroller in the Democratic primary.

County.

Incumbent Agriculture Commissioner Todd Staples, a Republican, will face Democrat Hank Gilbert. Gilbert shifted from his gubernatorial campaign to run as agriculture commissioner last fall when Bill White announced for governor. In the Democratic primary, Gilbert, an East Texas rancher, outdrew Hill Country humorist Richard Kinky" Friedman, founder of Utopia Animal Rescue Ranch near Kerrville.

Incumbent Texas Railroad Commissioner Victor G. Carrillo lost to Midland accountant David Porter in the Republican primary. Porter will face Democrat Jeff Weems in November.

Six incumbent state representatives lost to challengers. For a complete listing of primary results, go to www.sos.state.tx.us.

Perry issues posthumous pardon

Gov. Perry on March 1 granted a posthumous pardon to Timothy Brian Cole, a Texan who died in state prison in 1999 while serving a 25-year sentence for a 1985 aggravated sexual assault he did not commit.

Perry said he pardoned Cole after receiving a unanimous recommendation to do so from the Texas Board of Pardons and Paroles. More than a year earlier, a court ruled Cole was innocent after proof was confirmed through DNA testing.

Cole, who turned down an offer of parole in exchange for admitting guilt, maintained his innocence

throughout his time in prison. In 1995, five years before Cole's death, another suspect confessed to the crime. Cole died in prison of an asthma attack on Dec. 2, 1999, having served nearly 15 years of the wrongful sentence.

**Independence Day site** debuts

A Web site created by the Texas Parks and Wildlife Department and Brenham-based Blinn College, www.txindependence.org, debuted on March 2, Texas Independence Day.

The site spotlights the convention held at Washington-on-the-Brazos in 1836 when 59 elected delegates met, signed the Texas Declaration of Independence from Mexico and created a new nation, The Republic of Texas.

DPS says stay away from border

The Texas Department of Public Safety on March 4 urged spring break travelers to avoid border cities in Mexico. DPS Director Steve McCraw said there is an increase in drug cartel-related violence in those cities, adding that parents should not allow their children to visit there because their safety cannot be guaranteed.

Unemployment figure

On March 3, the Texas Workforce Commission reported the state's seasonally adjusted unemployment rate was 8.2 percent in January, the same as in December 2009.

### Long-time Instructor Succumbs to Illness

By Dr. Sara Jane Richter

Tom Lewis, long-time OPSU instructor, died on the evening of Sunday, February 28, in Liberal, Kansas, after a long and debilitating illness. His wife Charla Dannels Lewis and daughter Robbi were by his side. Tom touched and influenced a legion of students since he first began teaching English and humanities in 1987. Besides being a

well-respected and beloved instructor, he advised English majors and pre-law students, was commencement coordinator for many years, and helped to advise Anglistics (English Club). For a time, he served as the sponsor of the campus black student organization. Last year, the 2009 senior class named him Outstanding Faculty Member.

Born December 4, 1960, of Cherokee descent, Tom graduated from Nowata (Oklahoma) High School and attended the University of Oklahoma until he transferred to Oklahoma State University where he received his BA and his MA degrees. He and his family made their home in Liberal. Tom loved fishing and basketball, carpentry and reading, OU sports and the Pittsburg Steelers. He had an intellectual brilliance and cynical sense of humor rarely matched by anyone.

For the past several semesters, Tom taught his courses exclusively online for OPSU as his illness negatively impacted his mobility, voice, strength. Never did it impair his thinking and intellect though. Calm, positive, and dignified to the end, Tom was surrounded by those whom he loved and those who loved him.

Ask About Our

Lake Level--March 8. 2010--15.70 feet (-0.09)

With the old record low at 15.67, we are less than a half inch off of a new one. Jim's gauge showed .41 inch rain yesterday, and there are prospects for more on Wednesday and Thursday.

Activity at the lake picked up last week with the nice weather. Campers came from Pampa, Stinnett, and Perryton . The group from Perryton were mountain bikers.

Jim spent the week at water meetings, but Ramon Cantu reported several fishermen out. No one seemed to be catching, and they didn't stay long.

Ramon did see a golden eagle at the Lake. As the big bird flew over him, he was able to identify it from the white patches under the wings and on the tail. It is difficult for many of us to tell the difference between an immature bald eagle and a juvenile golden eagle, as both have white patches under the wings and on the tails. The trick seems to be to learn how the patches go, how to look for the golden or tawny shine on the golden eagles, and the difference in the tails of the two species.

#### **Gruver Hotel** and Coffee Shop

Two weeks ago the column ended with the Hotel at Lucern losing its identity, as it was torn down and rebuilt as the second and third stories of a new hotel by the Ayres family. It became the Gruver Hotel and Coffee Shop, opened in 1945.

As one entered the hotel lobby from Main Street, a door on the right led into a barber shop run by a Mr. Whitehorn. He is remembered as the barber who nicknamed many of the town's people. Stairs to the second floor were opposite the entrance, and to the left was a spacious lobby.

Off of it, to the east was the coffee shop. There were two apartments where the banquet room is now. Pauline Winger and her four children lived in one, and the Carl Lyle family in the other. Val Winger remembers that their apartment didn't have a kitchen, They ate in the coffee shop at first.

The rooms on the second floor all had bathrooms except for two. On the third floor the only windows to the outside were at the street and alley sides. The 8 little rooms were dark with one window each to the hall. There was one bathroom for the floor. One larger room was fitted with bunk beds. A room could be rented for \$8 a week.

## Clarendon, Gruver Advance Handily

By Lee Passmore, Amarillo Globe-News

LEVELLAND - Clarendon and Gruver have something to prove for different reasons with shadows of the recent and distant past hanging over

What those boys basketball teams have in common is they took care of business rather efficiently Friday in the semifinals of the Region I-1A Division I tournament at South Plains College's Texan Dome.

And that's why they'll meet at 3:30 p.m. today with a trip to the state tournament in Austin on the

Clarendon beat Seagraves, 72-56, in the first semifinal, followed by Gruver's 53-19 dismantling of Olton.

The way those area teams played leaves little doubt as to them being the best left in the region, at least the way Gruver coach Troy Seagler sees it.

"They were very impressive against Seagraves," Seagler said of Clarendon. "They're very good, so we're going to have to be ready.

There's already some familiarity between the teams, as Clarendon (25-6) beat Gruver (27-5) in December at Lubbock's Caprock Tournament. A lot more is on the line today.

Clarendon-Seagraves game might have been the most entertaining of the day's four games at the Texan Dome, at least in terms of offensive output. Both teams pushed the ball, but the Broncos did it Jirus Davis 10 5-7 25, more successfully.

Clarendon took the lead for good late in the first quarter, but the Eagles never made the Broncos feel comfortable.

"We knew (the Eagles) had some really good athletes who can get up and down the floor, but we like to play that way as well," Clarendon coach Clint Coley said.

What the Broncos had which Seagraves didn't, though, was point guard Johnny Gaines, who fueled Clarendon's fast break with 22 points and seven assists. Gaines had 14 points in the first half as the Broncos took a 40-28 halftime lead.

'Any team at this stage has a good point guard, and Johnny has this gift of getting people the ball in the right space," Coley said. "He's a junior, and he looks like a veteran running things."

The inside presence was provided by Tre Brown, who had 19 points for the Broncos, including 10 in the third quarter when Seagraves (18-9) looked primed to get back into the game. Stephino McCamp-

bell had 15 points for Clarendon, which is aiming for its first trip to the state tournament in 40 years.

Jirus Davis led Seagraves with 25 points, while Damien Vidales had 21, but they didn't get much help from the rest of their teammates.

Still, the Eagles put up more of a fight than Olton (17-14) did against Gruver. The game was tied 2-2 in the opening minutes, but after the Greyhounds scored the next 10 points, it seemed the Mustangs couldn't do much right.

"We came out ready and focused once again and got (the Mustangs) frustrated early," Seagler said. "I think we made them take some shots they didn't want to take.

"We were able to defend their fast break."

Gruver led 30-8 at halftime, and Olton never generated a credible threat in the second half. Rily Urban had 14 points, while Tyler Wills scored 12, all in the first half.

The Greyhounds have a chance to wash away the memories of last year's regional final loss to Plains.

"Our obvious goal is to get to Austin and not be satisfied until the last game is played," Seagler said. "We're going to face some very, very tough obstacles from here on out."

Greyhounds' defense sparks 43-36 victory By Lee Passmore, Amarillo Globe-News

LEVELLAND - This year, the Gruver Greyhounds made sure they finished the job.

One year after losing in the Region I-1A Division I finals, the Greyhounds returned to South Plains College's Texan Dome on Saturday with another chance to earn a trip to the state tournament in Austin.

The Clarendon Broncos promised to be a major obstacle, but a year of experience seemed to pay off for Gruver, which dominated the fourth quarter to win the region championship, 43-36.

The scene on the court after the game was far different from last year, when the Greyhounds lost the region title game to Plains.

That added to our determination and desire," Gruver coach Troy Seagler said. "We weren't just happy with being here."

Gruver (28-5) appeared to be on a mission against a Clarendon team which Seagler admitted concerned him after Friday's semifinals. Clarendon's uptempo style prevailed in a Olton 5 8 12 19, Gruver 19 72-56 win over Seagraves, which was sparked by point guard Johnny

Gaines. While Gaines was a factor in helping Clarendon (25-7) take a lead in the third quarter after a halftime deficit, the Grey-

hounds kept him in check in the third quarter, holding the Broncos to three points in the fourth quarter.

**Gruver Drops Clarendon** 

"We were gong to try to use a team approach because one guy can't stop (Gaines) for the whole game," Seagler said. "Defensively, I'm extremely proud of the guys."

Gruver led by as many as 12 points in the first half and went into the lockerroom with a 25-20 halftime lead. But Clarendon came back and led 33-30 late in the third quarter be-Gruver's Blake Fitzgerald hit a 3-pointer in the final seconds of the quarter to tie it 33-33 headed to the final period.

Those were the only points for Fitzgerald, but it seemed to be a turning point, as it sparked a 9-0 run by Gruver from which the Broncos were unable to recover. They weren't able to score again until the final minute.

"I think the biggest thing is that we didn't make shots we made in this playoff streak," Clarendon coach Clint Coley said. "We got a lot of good looks but we didn't take advantage."

Clarendon got within 39-36 on a layup by Tre Brown, but the Broncos couldn't score again. Gruver senior Drew Mireles was fouled twice in the final minutes and he put it away by making all four of his free throw attempts.

Mireles led the Grey-**Garrett Rex Memorial** hounds with 13 points, including eight in the fourth quarter after sitting out the entire second quarter after drawing two fouls.

"I thrive on being in control of a situation," Mireles said. "I've always been the leader on the team as far as taking care of the ball. I came back out in the second half and for me it was like the first quarter because I had all my energy back."

Tyler Wills had 12 points for Gruver, while Rily Urban had 11. Gaines was Clarendon's only scorer in double figures with 13.

## Spearman Housing Authority Provides Needed Services

The Spearman Housing Authority is in the process of spending over \$20,000 on improvements. The American Recovery and Reinvestment Act of February 2009 distributed the additional funds to the Spearman Housing Authority for use in capital improvements, and these were spent on new, energy-efficient windows, the continuation of the upgrade of the sewer system and on a new building which provides outside storage for two families.

The Spearman Housing Authority has provided housing for low-income families of Hansford County since the mid-sixties through the rental of six 3-bedroom and four 2bedroom apartments. In addition to basic shelter and safety needs, families are assisted with other matters, including doctor visits and help with applications for other available forms of social service. Through its continuous operation over these 40+ years, the Housing Authority has served many local families through some of their most difficult times.

"Housing authorities, in general, are unique collaborations among federal,

state and local governments which were initiated by the 1937 Housing Act, and amended several times, to provide decent, safe and sanitary housing to low-income families at affordable rents and in a fair manner," commented Beverly Cook, Executive Director for the Spearman Housing Authority.

Rent is based on the income information provided by tenants (that is then verified by a third

party). Tenants are given an electricity and gas allowance. If a tenant's income changes, the rent is adjusted.

There are benefits to the community, however, which go beyond these direct services to families," continued Cook. "Among these are the investment of funds in the goods and services of local businesses - including banks, retail merchants, news media and other advertisers, equipment servicing providers, professional electricians, carpenters, craftsmen and plumbers plus the temporary employment of unskilled laborers who would otherwise be jobless."

The Spearman Housing Authority has a waiting list of about fifteen people, some of whom have been waiting for over two years. Residency averages over two years, with the longest resident having lived there for over eight years.

Funds for the Housing Authority are provided through the U.S. Department of Housing and Development, Urban through the regional office located in Fort Worth.

"Serving the Housing viewpoint of a retired minister and pastor," said Cook. "The little commuBeverly Cook, executive director for the Spearman

"However, the aspect of sitting at the family table into the wee hours of the night, struggling with one or the other of 'the big three' (food/clothing/shelter), brings me full-circle with my early years at home, watching my mother redistribute all our meager income to precisely those 'three,'" conopportunity to be instrumental in one of these areas on behalf of others being multiplied many times over in their effects

The Spearman Housing Authority is overseen by a board of four community representatives, one resident representative, and the executive director. Current board members are Anne Snow, chairman, Verna Strawn, R.L. Mc-Clellan, Carrie Cenniceros, and Tracy Gibson, resident.

All that goes on in the tinued Cook. "Having the administration, management, maintenance and tenant services of Spearman Housing Authority, has been and is a real joy, though complicated, is in-Authority, now for over 6 as is the great satisfaction tended to be entirely transyears, has been a blessing of seeing public funds not parent.
