### Torah Teasers:

1. This parsha begins with a description of the Jewish people "standing" (netzavim) before Hashem. What 4 other places in the Torah are people described as "standing" (netzavim)?

(1) The angels who come to Avraham in parshas Vayerah are standing (netzavim) over him (Genesis 18:2). (2) In parshas Vayigash, men are standing near Yosef when he wishes to reveal himself to his brothers (Genesis 45:1). (3) In parshas Shemos, when Moshe and Aharon leave Pharaoh after their unsuccessful meeting, men are standing outside the palace waiting to meet them (Exodus 5:20). (4) In parshas Korach, Dathan and Aviram stand outside their tents when Moshe comes to speak to them (Numbers 16:27).

2. Which two ancient professions appear in this parsha? The professions of a wood-chopper and a water-carrier are in Deuteronomy 29:10.

### Parsha Related Humor

It's been a very emotional day. Even the cake is in tiers.

Did you hear about the two spiders who just got engaged? I hear they met on the web.

Two cannon balls got married this morning. I hear they're already expecting BBs.

Unfortunately, the jumper cables are getting a divorce. They just didn't have that spark.

"A successful marriage requires falling in love many times, and always with the same person."
