HALO 47

The background of the entire page is a close-up, slightly blurred view of an American flag. The stars and stripes are visible, with a large, semi-transparent watermark of the word 'KELTEC' in a bold, sans-serif font overlaid across the center. The text 'THE AMERICAN DREAM' is centered in a dark blue, bold, sans-serif font.

THE AMERICAN DREAM

We design firearms that are innovative in design and exciting to use. KelTec employs 300 American citizens — many military veterans — who come to work every day to craft unique firearms dreamed up by our team of talented engineers.

A person wearing a brown tactical jacket is holding a black rifle with a scope. The background is a semi-transparent American flag. On the left side, there is a white graphic with three stars and the text 'MADE IN USA' with a stylized banner below it.

PMR30™ PISTOL

In 2008, our Chief Design Engineer, Tobias Obermeit had a vision to build a semi-auto .22WMR pistol that holds 30 rounds in a flush-fit magazine. Roughly based on an early, futuristic looking George Kellgren design, the PMR30 was released in 2010 with high praise and still stands out as one of the most innovative handguns in the world today.

Fiber optic front and rear sights for enhanced visibility

Trigger system delivers smooth, positive function

Overall ergonomics are well designed, and functional

CONCEALED CARRY DONE RIGHT

PLR PISTOLS

We like our pistol caliber carbines, but we also like our rifle caliber pistols. Chambered in 5.56 NATO, the PLR16 is an excellent option for small game hunting, hiking, turning heads at range day or any situation that requires a rifle caliber in a pistol platform. It accepts standard AR-15 magazines and it's ready for customization to fit your needs. If you're a fan of the affordable .22LR, the PLR22 might be a great option for you.

SUB2000™ RIFLE

Welcome to the fold! You're looking at a semi-automatic folding carbine that comes with more pistol magazine options than a cat has lives. Offered in 9mm or .40cal, the SUB2000 picks up where handguns leave off. Folded, it tucks away nicely in situations where space is limited, but it's quick to deploy in situations where time is of the essence.

SUB2000

RDB[®] RIFLES

Like no ordinary bullpup, the RDB series of rifles redefines the platform. You've never experienced balance or a trigger quite like this in any other design. The RDB is completely ambidextrous due to its patented downward-ejection, magazine catch/release placement, intuitive safety and reversible operating handle. The RDB series of bullpups delivers a 5.56/.223 ballistic advantage in a very compact package that's easy to manipulate for just about anyone.

KSG[®]

SHOTGUNS

In 2011, we introduced the KSG and completely changed the world of tactical, pump-action shotguns. Pick your favorite variant or collect them all... we won't blame you. All of our shotguns are chambered for 3-inch shells and fire a wide variety of projectiles. The dual tubes feature a selector switch that we affectionately call, the world's fastest reload. We should also mention that they're all downward-ejecting and completely ambidextrous.

WARRANTY

LIFETIME WARRANTY

Only one thing equals our commitment to the innovation and development of original, unique, high-performance firearms — and that's our commitment to you, our customers.

Your satisfaction is why we provide you with a lifetime warranty on all of our firearms, not just a short, one or two-year warranty. We design, engineer, craft and build quality firearms and we stand behind them, pure and simple.

That's why, along with your lifetime warranty, comes best-in-class customer service, whether you have a question or are experiencing a problem. We treat every customer as if you're our only customer and every weapon as if it were our own, examining every facet of it before returning it to you so that you can be sure it's performing as it should.
