# 1. Overview of Consolidated Results of Operations and Financial Conditions

## (1) Overview of Results of Operations

Reviewing the economic environment over the fiscal year ended March 31, 2020, the global economy showed a slowdown, primarily in the manufacturing industry, due to factors such as uncertainty related to the trade disputes between the United States and China. Furthermore, toward the end of the fiscal year, the global economy began to show signs indicative of a state of crisis due to the worldwide spread of COVID-19.

In the United States, the economy of which had been expanding, the economic base began to deteriorate rapidly, including a substantial decline in the rate of employment due to the impact of the spread of COVID-19. In light of such circumstances, the Federal Reserve Board (FRB) cut interest rates as an emergency measure twice in March, and the Trump administration implemented US\$2 trillion worth of economic measures. However, concerns about a further decline in the economy have not been dispelled.

In Europe, where the economy remained weak, the European Central Bank (ECB) decided to purchase assets and expand long-term refinancing operations in response to the spread of COVID-19 throughout Europe. However, the economic situation is becoming increasingly serious.

In Asia, the Chinese economy continued to slow down. The growth of production, investment and consumption has slowed as economic activities have contracted since the beginning of 2020 due to COVID-19, in addition to the impact of trade disputes between the United States and China. Moreover, in emerging countries, currency depreciation and capital outflows have been observed, partly due to the fall in the prices of crude oil and other resources.

In Japan, the real GDP growth rate fell sharply negative in the October to December quarter of 2019, partly due to the impact of the consumption tax increase amid the sluggishness in export and production activities. In response to the spread of COVID-19, the Bank of Japan decided to expand financial support measures for businesses and increase purchases of exchange-traded funds (ETFs) and corporate bonds, and the government has also taken a series of emergency measures. However, economic activities are contracting at an accelerating pace.

As to the prospects for the global economy, negative growth is expected due to the impact of the spread of COVID-19. While monetary easing and economic stimulus measures implemented in each country are expected to have a positive effect on the economy, there is a concern that, if the impact becomes prolonged, demand will decrease further due to worsening employment and income situations. The Japanese economy is expected to remain in a difficult situation for the time being, due to factors such as decreased consumption, primarily in the service-related sector, and capital investments.

Under the foregoing business environment, we recorded Consolidated Gross Profits of ¥2,062.2 billion for fiscal 2019, increasing by ¥249.4 billion from the previous fiscal year due to the steady business performance in both Customer Groups and Markets.

General and Administrative Expenses decreased by ¥52.4 billion on a year-on-year basis to ¥1,378.3 billion due to the efforts of structural reform.

As a result, Consolidated Net Business Profits increased by ¥268.5 billion on a year-on-year basis to ¥661.9 billion.

Consolidated Net Business Profits + Net gains or losses related to ETFs and others that consist of Consolidated Net Business Profits, Net gains or losses related to ETFs and others on a non-consolidated aggregated basis of the banks, and Net gains or losses related to operating investment securities on a consolidated basis of Mizuho Securities Co., Ltd. increased by ¥264.2 billion on a year-on-year basis to ¥672.5 billion.

Credit-related Costs increased by ¥152.1 billion on a year-on-year basis to ¥171.7 billion due to recording Reserves for Possible Losses on Loans for some credit exposures reflecting the impact of COVID-19 in light of the principles set forth in the report entitled "JFSA's supervisory approaches to lending business and loan loss provisioning" published by the Japanese Financial Services Agency in December 2019.

Net Gains (Losses) related to Stocks decreased by ¥137.6 billion on a year-on-year basis to net gains of ¥137.1 billion.

As a result, Ordinary Income increased by ¥23.7 billion on a year-on-year basis to ¥637.8 billion.

Extraordinary Gains (Losses) increased by ¥478.6 billion on a year-on-year basis to net losses of ¥19.1 billion due to the lack of losses in light of structural reform recorded last year.

Tax-related Expenses increased by ¥163.9 billion on a year-on-year basis to ¥161.4 billion.

As a result, Profit Attributable to Owners of Parent for fiscal 2019 increased by ¥352.0 billion on a year-on-year basis to ¥448.5 billion.

As for earnings estimates for fiscal 2020, we estimate Ordinary Profits of ¥400.0 billion and Profit Attributable to Owners of Parent of ¥320.0 billion on a consolidated basis.

We will disclose promptly if we need to revise the above consolidated earnings estimates due to the further spread of COVID-19.

## (2) Overview of Financial Conditions

Consolidated total assets as of March 31, 2020 amounted to ¥214,659.0 billion, increasing by ¥13,866.8 billion from the end of the previous fiscal year mainly due to an increase in Receivables under Resale Agreements.

Securities were ¥34,907.2 billion, increasing by ¥5,132.7 billion from the end of the previous fiscal year.

Loans and Bills Discounted amounted to ¥83,468.1 billion, increasing by ¥5,011.2 billion from the end of the previous fiscal year.

Deposits and Negotiable Certificates of Deposit amounted to ¥144,472.2 billion, increasing by ¥6,822.6 billion from the end of the previous fiscal year.

Net Assets amounted to ¥8,663.8 billion, decreasing by ¥530.1 billion from the end of the previous fiscal year.

Shareholders' Equity was ¥7,561.0 billion, Accumulated Other Comprehensive Income was ¥992.9 billion, and Non-controlling Interests was ¥109.6 billion.

Net Cash Provided by Operating Activities was ¥1,901.8 billion mainly due to increased deposits. Net Cash Used in Investing Activities was ¥5,808.5 billion mainly due to purchase, sale, and redemption of securities and Net Cash Used in Financing Activities was ¥281.8 billion mainly due to repayments to non-controlling shareholders and cash dividends paid.

As a result, Cash and Cash Equivalents as of March 31, 2020 was ¥39,863.6 billion.

## (3) Basic Policy on Profit Distribution, Dividend Payment for Fiscal 2019 and Dividend Estimates for Fiscal 2020

We have been implementing disciplined capital management by pursuing the optimum balance between strengthening of stable capital base and steady returns to shareholders, and set forth our shareholder return policy that we are maintaining the current level of dividends for the time being while aiming to strengthen our capital base further to enhance returns to shareholders at an early stage.

Based on this policy, we have decided to issue ¥3.75 of year-end cash dividends on common stock for Fiscal 2019 (annual cash dividends of ¥7.50 including interim dividends of ¥3.75) in accordance with Dividend Estimate at the beginning of the fiscal year.

The Board of Directors has decided on the ¥7.50 of annual cash dividends on common stock for Fiscal 2019, even though Profit Attributable to Owners of Parent for Fiscal 2019 was slightly lower than our Earnings Estimate at the beginning of the fiscal year as a result of additional Reserves for Possible Losses on Loans for some credit exposures from a forward-looking perspective based on future projections, reflecting the potential impact of COVID-19 on our financials. To make such decision, the Board of Directors has taken into account and considered thoroughly our business environment comprehensively including capital adequacy, and domestic and international regulation trends, including the Basel regulatory framework.

Common Stock	¥3.75 per share (unchanged from the estimate at the beginning of Fiscal 2019)
Annual cash dividends incl. interim dividends	¥7.50 per share (unchanged from the estimate at the beginning of Fiscal 2019)

Furthermore, in accordance with the Articles of Incorporation, we decide to issue dividends not by a resolution at the General Meeting of Shareholders but by a resolution at the Board of Directors unless otherwise stipulated by laws and regulations. We decided on the year-end cash dividend payments on common stock for Fiscal 2020 at the Board of Directors held today.

For Fiscal 2020, based on the shareholder return policy, we will comprehensively consider the business environment such as the Group's business results, profit base, status of capital adequacy, and domestic and international regulation trends, including the Basel framework, in determining the amounts of dividends payment.

As for the dividend estimates of common stock for Fiscal 2020, we predict ¥7.50 per share of common stock, which is the same as Fiscal 2019. We intend to continue payments of cash dividends at the interim period to return profits to shareholders in a timely manner.

(Dividend Estimates for Fiscal 2020)

Common Stock	Cash Dividends per Share	¥7.50
	of which Interim Dividends	¥3.75

In addition, with the approval of the 18th Ordinary General Meeting of Shareholders to be held in June 2020, the shares of common stock will be consolidated on the basis of one post-consolidation share per ten pre-consolidation shares to be effective on October 1, 2020. Taking such share consolidation into account, fiscal year-end dividend estimates for Fiscal 2020 will be ¥37.50.

Also, with the approval of the same General Meeting of Shareholders, the Articles of Incorporation will be amended such that the Board of Directors remains as the organization to make decisions on issuing dividends, but the General Meeting of Shareholders may also make decisions on such matters in the event a shareholder's proposal is presented.

## 2. Basic Stance on Selection of Accounting Standards

MHFG prepares its consolidated financial statements in accordance with Japanese Generally Accepted Accounting Principles. With respect to International Financial Reporting Standards (IFRS), in light of possible adoption in the future, MHFG is continuing research and study on the situation in Japan and Overseas and/or the development of IFRS.

**(5) Notes regarding Consolidated Financial Statements****(Matters Related to the Assumption of Going Concern)**

There is no applicable information.

**(Changes in Accounting Policies)**

(Application of “Leases” (IFRS 16 and ASU 2016-02))

MHFG has applied “Leases” (IFRS 16 and ASU 2016-02) at some consolidated subsidiaries from the consolidated fiscal year ended March 31, 2020. Accordingly, lessees recognize assets and liabilities for all leases as a general rule.

In accordance with transitional treatment, MHFG has recognized the impact of adoption of this accounting standard cumulatively as of the date of adoption for balances at the beginning of the consolidated fiscal year ended March 31, 2020.

The impact on the consolidated financial statements for the consolidated fiscal year ended March 31, 2020 is immaterial.

(Changes in Hedge Accounting)

Previously, deferred method or the fair-value hedge method have been applied as hedge accounting methods.

From the third quarter ended December 31, 2019, hedge accounting methods of some items were changed from fair-value method to deferred method.

Based on current market trends, MHFG reconsidered its risk management activities from the third quarter ended December 31, 2019, in order to provide more transparent disclosure in the financial statements.

If the same accounting policy as that of the current fiscal year had been adopted in the interim period ended September 30, 2019, the effect of this change on this interim period would have been immaterial.

The effect of this change in accounting policy on past periods is immaterial. Therefore, we do not retrospectively apply this policy change in prior periods. This change has no impact on the gains and losses.

**(Business Segment Information)**

## 1. Summary of reportable segment

MHFG has introduced an in-house company system based on the group's diverse customer segments.

The aim of this system is to leverage MHFG's strengths and competitive advantage, which is the seamless integration of MHFG's banking, trust and securities functions under a holding company structure, to speedily provide high-quality financial services that closely match customer needs.

Specifically, the company system is classified into the following five in-house companies, each based on a customer segment: the Retail & Business Banking Company, the Corporate & Institutional Company, the Global Corporate Company, the Global Markets Company, and the Asset Management Company.

The services that each in-house company is in charge of are as follows:

Retail & Business Banking Company:

Services for individual customers, small and medium-sized enterprises and middle market firms in Japan

Corporate & Institutional Company:

Services for large corporations, financial institutions and public corporations in Japan

Global Corporate Company:

Services for Japanese overseas affiliated corporate customers and non-Japanese corporate customers, etc.

Global Markets Company:

Investment services with respect to interest rates, equities and credits, etc. , and other services

Asset Management Company:

Development of products and provision of services that match the asset management needs of its wide range of customers from individuals to institutional investors

The reportable segment information, set forth below, is derived from the internal management reporting systems used by management to measure the performance of the Group's operating segments.

Management measures the performance of each of the operating segments in accordance with internal managerial accounting rules and practices.

2. Calculating method of Gross profits (excluding the amounts of credit costs of trust accounts) + Net gains or losses related to ETFs and others, Net business profits or losses (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) + Net gains or losses related to ETFs and others, and Fixed assets by reportable segment

The following information of reportable segment is based on internal management reporting.

Gross profits (excluding the amounts of credit costs of trust accounts) + Net gains or losses related to ETFs and others is the total amount of Interest Income, Fiduciary Income, Fee and Commission Income, Trading Income, Other Operating Income, and Net gains or losses related to ETFs and others.

Net business profits or losses (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) + Net gains or losses related to ETFs and others is the amount of which General and administrative expenses (excluding non-recurring expenses and others), Equity in income from investments in affiliates, Amortization of goodwill and others (including amortization of intangible assets), and Others (consolidation adjustments) are deducted from, or added to, Gross profits (excluding the amounts of credit costs of trust accounts) + Net gains or losses related to ETFs and others.

Gross profits (excluding the amounts of credit costs of trust accounts) + Net gains or losses related to ETFs and others relating to transactions between segments is based on the current market price.

Fixed assets disclosed as asset information by segment are the total amount of tangible fixed assets and intangible fixed assets.

Fixed assets pertaining to Mizuho Bank, Ltd., Mizuho Trust & Banking Co., Ltd., and Mizuho Securities Co., Ltd. have been allocated to each segment.

3. \* In addition to "Securities" on the consolidated balance sheets, NCDs in "Cash and Due from Banks," certain items in "Other Debt Purchased" and certain items in "Other Assets" are also included.

\* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

\* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

\* Unrealized Gains/Losses include ¥(5,191) million and ¥38,000 million, which were recognized in the statement of income for March 31, 2020 and March 31, 2019, respectively, by applying the fair-value hedge method.

As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of March 31, 2020 and March 31, 2019 are ¥1,177,950 million and ¥1,651,865 million, respectively.

\* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair value hedge method, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2020 and March 31, 2019 are ¥823,085 million and ¥1,186,401 million, respectively.

\* In addition to "Securities" on the balance sheets, NCDs in "Cash and Due from Banks" and certain items in "Other Debt Purchased" are also included.

\* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the balance sheet date.

\* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the balance sheets and the acquisition costs.

\* Unrealized Gains/Losses include ¥(5,191) million and ¥38,000 million, which were recognized in the statement of income (aggregate figures for the 2 banks) for March 31, 2020 and March 31, 2019, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax adjustment (aggregate figures for the 2 banks) as of March 31, 2020 and March 31, 2019 are ¥1,103,561 million and ¥1,579,289 million, respectively.

\* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax adjustment, excluding the amount recognized in the statement of income by applying the fair-value hedge method including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2020 and March 31, 2019 are as follows:
