## About this set:

Our Cursive Bible ABC's worksheets are just right for beginners. Children can practice letter formation by tracing over the dotted letters, and then begin to work on their own in the provided space. Each letter features a Bible character or concept, and features uppercase and lowercase letter formation. At the bottom of the worksheet children are encouraged to look over their progress and check the box once satisfied that they have done their best work. If you have younger children, this cursive set coordinates with a box print set available [here](#).
