

# SHOOTING STALLS

[ActionTarget.com](http://ActionTarget.com)

## CUSTOMIZE YOUR RANGE

Action Target offers the most diverse shooting stalls with the highest safety ratings and most customizable options. Independent ballistic testing and advanced designs ensure that shooters stay safe and comfortable in your range. Various color options, attachable accessories, interchangeable ballistic panels, and multiple table options are available to customize your range and create the ideal shooting experience.

## BALLISTICALLY RATED

Action Target shooting stalls are engineered and independently tested to provide the best ballistic protection in the industry. Glass and steel core panels are available in ATI Class 1 (handgun) and ATI Class 2 (rifle) rated options to protect against today's advanced firearms.

STALL PANEL BALLISTIC RATINGS					
Material	ATI Class	Caliber	Max Velocity	Max Energy	Compliance
Glass	Class 1	Pistol	1,485 fps	1,175 ft/lbs	UL752 Lv 3; EN1063 BR4(S)
	Class 2	Rifle*	3,388 fps	3,600 ft/lbs	EN1063 BR5(S)
Solid	Class 1	Pistol	1,485 fps	1,175 ft/lbs	UL752 Level 3
	Class 2	Rifle*	3,388 fps	3,600 ft/lbs	UL752 Level 5,7,8,9,10

\*Not rated for armor piercing or atypical ammunition.

**ATI Class 2 Steel:** Shot five times by 5.56x45 NATO.

**ATI Class 2 Ballistic Steel:** Shot one time by 7.62x51 NATO

## STEEL CORE

Action Target's steel core panels feature a three-layer system designed to capture and contain accidental discharges.

- 1 Rugged Outer Layer:** Outer plastic layer protects shooters from ricochets by allowing bullets to pass through while preventing splatter.
- 2 Wood Mid-Layer:** A wood mid-layer absorbs bullet energy.
- 3 Steel Core:** An independently rated-ballistic steel core stops the bullet.

## CLEAR GLASS

Providing the same level of protection as a steel-core panel, ballistic glass allows optimal visibility on a range while maintaining ballistic protection. Action Target's glass is produced using a proprietary layering system that is independently rated.

# DEFENDER™ SHOOTING STALL

The Defender Shooting Stall is the most modular shooting stall on the market. Interchangeable ballistic panels make it easy and economical to replace parts. Custom color options and attachable accessories give your range a unique look and feel.

## MODULAR

Interchangeable components allow for future upgrades and complete customization.

## CUSTOMIZABLE

Multiple colors, accessories, ballistic panels, and table configurations are available.

## BALLISTIC

Independent UL 752 and EN 1063 tests validate ballistic integrity of panels.

## MODERN DESIGN

The Defender Stall sets ranges apart with its modern design

## SERVICEABLE

Modular components enable easy replacement and service as parts wear.

## VERSATILE

Tactical carts, pivot tables, and dimmable lights allow for versatile use and training.

## 1 BRASS DEFLECTOR

A standard brass deflector blocks brass from traveling into adjacent lanes, creating a clean and safe environment for customers.

## 2 MUZZLE BLAST BARRIER

Adding a muzzle blast barrier to the front of the stall drastically improves the shooter's comfort by blocking muzzle blasts from adjacent lanes.

## 3 ABS SKIN

A textured layer of ABS plastic can be added to the stall column for extended protection to the stall finish.

## 4 LED LIGHTING

Adding a fully dimmable light allows users to customize their shooting experience.

## 5 PANEL INSERTS

The Defender Stall panels are independently tested for ballistic integrity and specifically designed to stop a bullet and prevent ricochet. Customize your stalls with ballistic glass for improved visibility or solid ballistic steel-core panels for optimal privacy.

**Full Solid:**  
Optimal Privacy

**Split Glass:**  
Improved Visibility

**Full Glass:**  
Optimal Visibility

## 6 STALL TABLES

In addition to the standard fixed table, the Defender Stall is compatible with a pivot table and a tactical cart. These options improve functionality and ease of down range access. See page 10 for more details.

# SENTRY™ SHOOTING STALL

NEW

The Sentry Shooting Stall comes in two configurations. The Sentry Deluxe model offers customers an enhanced private shooting experience while the Sentry model offers ranges a more economical single panel option. Set your range apart with this private shooting stall and its custom accessory and color options.

**M PRIVATE**  
Sentry Deluxe is six-feet deep with an optional self-closing gate for a private experience.

**CUSTOMIZABLE**  
Multiple colors, accessories, ballistic panels, and table configurations are available.

**BALLISTIC**  
Independent UL 752 and EN 1063 tests validate handgun and rifle ballistic integrity.

**↓ ECONOMICAL**  
The Sentry Stall offers an economical single panel design for ranges on a budget.

**ADJUSTABLE**  
Both the Sentry and Sentry Deluxe feature two different table heights.

## 1 BRASS DEFLECTOR

A standard brass deflector blocks brass from traveling into adjacent lanes, creating a clean and safe environment for customers.

## 4 LED LIGHTING

Adding a fully dimmable light allows users to customize their shooting experience.

## 2 MUZZLE BLAST BARRIER

Adding a muzzle blast barrier to the front of the stall drastically improves the shooter's comfort by blocking muzzle blasts from adjacent lanes.

## 5 STALL TABLES

The Sentry and Sentry Deluxe Stalls are compatible with the standard fixed table with an optional shelf or a pivot table for ease of downrange access. See page 10 for more details.

## 3 BALLISTIC PANELS

The Sentry and Sentry Deluxe Stall panels are independently tested for ballistic integrity and specifically designed to stop a bullet and prevent ricochet. Customize your stalls with ballistic glass for improved visibility or solid ballistic steel-core panels for optimal privacy. Available options include glass, rubber-lined steel, or wood/ABS lined steel.

## 6 SELF-CLOSING GATE

A self-closing gate may be added to the Sentry Deluxe Stall to improve the private atmosphere within the stall.

# ACCESSORIES

The Defender™ and Sentry™ shooting stalls have a number of available accessories that customize a shooter's experience and add functionality to any shooting range.

## BRASS DEFLECTOR

A standard brass deflector blocks brass from traveling into adjacent lanes, creating a clean and safe environment for customers.

## LED LIGHTING

Adding a fully dimmable light allows users to customize their shooting experience.

## MUZZLE BLAST BARRIER

Adding a muzzle blast barrier to the front of the stall drastically improves the shooter's comfort by blocking muzzle blasts from adjacent lanes.

## FIXED TABLE

The Fixed Table has an optional lower shelf customers can use to store gear.

## PIVOT TABLE

The Pivot Table rotates out of the way for easy range maintenance and tactical training scenarios.

## TACTICAL CART

The Tactical Cart detaches from the stall and rolls down range for tactical training. A storage shelf is included.

# COLOR OPTIONS NEW

New color options give a range its own unique look and feel. Both the stall ballistic panels and stall frames are available in a variety of colors.
