avast

Avast for Business Endpoint Security

The most-trusted security in the world

A World-class solution for PCs, Macs, and servers. Manage your business security easier with an intuitive and easy-to-use cloud-based system.

Streaming Updates

Award-winning Anti-malware

SafeZone Browser

THE BIG BENEFITS

Protect financial transactions

Avast for Business Endpoint Security includes SafeZone Browser to lock down your online banking and other financial transactions, protecting your data from accidental or deliberate misuse or corruption.

Secure SharePoint servers

Protect file and Microsoft SharePoint servers from the same remote console that secures your Macs and PCs.

Flexible security, anywhere

Cloud-based management enables devices to easily report and be managed, no matter where they are.

Stop attacks faster

With over 230m devices collecting threat intelligence, our real-time streaming updates keep you protected with the latest virus definitions.

THE TECHNICAL FEATURES

Workstations (PCs and Macs)

SAFEZONE BROWSER TRANSACTION PROTECTION

SafeZone Browser locks down financial transactions, protecting your data.

SECURE HTTPS SCANNING

Scans HTTPS sites for hidden threats. You can customize the scanning to exclude sites you work with on a regular basis.

ANTIVIRUS AND ANTI-MALWARE

The world's most-trusted antivirus and anti-malware engines keep you better protected.

STREAMING UPDATES

Unobtrusive micro-updates keep you protected.

RESCUE DISK BACKUP

Allows you to create a rescue disk in case disaster strikes.

SILENT MODE

All the protection without any interruption for users.

HARDENED MODE (PC ONLY)

Application whitelisting allows only the apps that you've specifically authorized to run.

ANTI-PHISHING

Lets you know when a site is not what it claims to be.

BROWSER CLEANUP (PC ONLY)

Deletes annoying and unwanted toolbars or plug-ins that slow down browsers.

CYBERCAPTURE

Avoid surprise attacks with real-time analysis of unknown files.

THE TECHNICAL FEATURES

Servers

INTEGRATED PROTECTION

Includes high-performance scanning and scalability for servers, including support for clustering.

SHAREPOINT SERVER PROTECTION

Protects and integrates directly with Microsoft SharePoint servers.
