

**Combining Talent
with Opportunity**

Quite simply we take pride...

At Berry Recruitment we take pride in every successful temporary, contract and permanent placement that we make. We take pride in providing talented candidates who surpass client expectations and we take pride in helping people achieve their full potential.

This simple principle is evident in every aspect of our business. It can be seen in the way we carefully develop Recruitment Consultants who enjoy their work and take service standards very seriously. It can be seen in our innovative, "can do" approach to recruitment requirements and it can be seen throughout our fast growing office network.

Please don't take our word for this. Feel free to speak to the customers that we work with and please speak to our Recruitment Consultants and Managers in more detail. Our people are the key to our business and the best indicator of what we stand for and what we do. We are sure you will notice the pride they take in assisting you.

Recruiting for the Hospitality World

Service excellence is of paramount importance within the catering and hospitality sector. From the moment your customer arrives he or she expects warmth, attention to detail and to feel just a little bit special. As you know achieving this relies on careful planning, the ability to deal with pressure and the support of your colleagues. Recruiting the right staff can therefore be essential and is often the key to client satisfaction, reputation and repeat business.

At Berry Catering we understand recruitment and are dedicated to locating staff that prove their worth through their attitude and performance. Our sector experience helps us identify high quality individuals who share your objectives and have the personality and training to hit the ground running. Our commitment is always evident and the people we provide will ensure your customers receive and enjoy the service you have promised.

When you contact us with an enquiry we do not leave things to chance. One of our specialist Consultants will visit you, learn about your particular challenges and brief selected workers from our established database. We can then meet short, seasonal and long term requirements and our 24 hour, 7 day availability means that you can immediately speak to an expert Consultant (we can also provide an on site management service for large scale events). Every worker that we provide is trained and tested and our in-depth vetting process includes DBS and Food Hygiene Certification checks for added peace of mind.

Berry Catering recruits staff for the hospitality world. We deal with a variety of enterprises including prestigious sports and leisure organisations, events managers, contract caterers, hotels, hospitals, schools, local restaurants and pubs. Every client is special to us and our aim is to develop long term loyalty in every case (our extensive collection of testimonials bears witness to our progress). We are determined to build on our success so far and, in a sector where the smallest details are important, our focus will always be on service.
