Compact Base Gel PLUS Clear

This is the thicker version of the most wanted Compact Base Gel Clear. This product has a more convenient consistency, it won't flow even in the heat of the summer. You can easily make the c-curve and the durability is the same as the Compact Base Gel.

New! Hardener Sand

This is a very fine dust for strengthening the nail. We recommend to using this product if we would like to preserve the natural look of the nail but we want to strengthen it. Apply a thin layer of Compact Base Gel, then sprinkle this dust on the surface of the CBG and cure it. After that, apply the color in a usual way. The nail what has prepared this way will be resistant without c-curve.

This nail was made with the new Compact Base Clear Plus, the Hardener Sand, the 1S90 Nevada Neon, the 1S91 Bikini Party, the 1S92 Lavender Cocktail, the 1S93 Summer Rain; and the Bubblegum Color Gel black by Alexandra Mész.
