# TREND COLORS OF FALL-WINTER 2023

## ROSE VIOLET

The pink line of the Barbiecore trend continues in autumn with a little twist: this season's trend color is Rose Violet, which is more icy shade of crimson that looks really hot not only in clothes and accessories, but also on nails. If you would like to mix it with more neutral shades, choose nude or gray colors, but with deep red or other shades of pink you can also reach really good combinations.

## SILVER BIRCH

Gray is a neutral shade, but life is not only black or white, it's full of many shades in between. This year's fall-winter trend color is Silver Birch, a light gray shade with a touch of warm tone. Even within its neutrality, this gray color radiates warmth when paired with the right shades. We can make it really contrasting with white decorations or by combining it with deeper shades or we can make it softer with beige-nude shades.

# BRAND NEW! FLASH SENS '3G' POLISH MAGNETIC FLASH

MAGNETIC REFLECTIVE GEL POLISHES

Sens' new product line has arrived: the '3G' Polish Magnetic Flash gel polish, which is a **3-step gel polish with magnetic, reflective properties**. If Sens FLASH was your favorite so far, you will love these materials even more! Its reflective glitter contains tiny holo particles, so it's delightful in itself! If you magnetize, you don't need a base color and even the first layer can be magnetized. They will bring real magic to the salons! Curing time in UV 2-3 minutes, in LED 1-2 minutes.

In direct light it may look „just“ like a high covering gel polish with fine glitter, but if the light comes from the side or behind, or if we admire the nails in a darker environment, then it will sparkle dazzlingly, almost every glitter particle will light up, one by one!

## RECOMMENDED TOOL: MULTIFORM TIGER EYE MAGNET

With this Tiger Eye Magnet you can create shapes. The strong magnet covers the whole surface of the nail, so you can easily create S, X shapes with it.

# NEW COLORS! - 2 STEP SMARTGUMMY RUBBER BASE GEL

## "THE RUBBERY COMPACT BASE GEL"

New, **innovative Base Gel**, characterized by extremely easy spreadability, high flexibility and strong adhesion. The creation of a smooth surface is easy to create, because this material easily smooths out and all of the unevenness quickly disappears from the surface. It **holds the C-curve well**, meanwhile it does not flow easily in the nail fold, that provides a great help for those who originally like to work with medium soft materials. **It provides also a fast work flow with only a few corrective movements necessary. Its flexibility makes this material stand out among all Base Gels**, making it extremely resistant, it adapts to all kinds of movements of the natural nail, so it stands the possible mechanical influences better than its counterparts. It is at the top of the Base Gels' adhesion order. After curing, the surface stays sticky. Use the Cool Top Gel as a top gel.

The autumn SmartGummy collection includes a hot darker shade of red (Nr36), a **pure brown** (Nr40), a **special ivory color** (Nr44), **lighter and darker shades of gray** (Nr45, Nr46) and a beautiful shade of **nude** (Nr41), because there is never enough nude! All colors can be perfectly varied with other material groups of the season, but **the end result is eye-catching if you combine them with the new Tiger Eye Silk colors or the SENS MAGNETIC FLASH gel polishes**. Curing time in UV 2-3 minutes, in LED 1-2 minutes.

### SMARTGUMMY RUBBER BASE

**SMART:** it crawls into its place automatically, then slips into the surface

**GUMMY:** because it's flexible, rubbery  
**RUBBER BASE:** you can use it as a base or refill your nails and also you can create the C-curve but do not build a long nail on form with this product. Use the Compact product line or the Elastic Hardener Gel or the SENS base&builder range for that.

**Remember: The SmartGummy Rubber Bases are recommended for fingertip-length, mini-length nails. You can replace the base gel + 2 layers of color technique to speed up your salon work.**

"The 2 STEP SmartGummy Rubber Base Gel collection has been expanded with beautiful colors. I love this material, because I can quickly make the C-shaped nail reinforcement with it, and it's also gives the color of the nail, so I save time with it. This product line will be my favorite in the fall season as well."
