

How to Connect to ODU CS VPN:

1. In a web browser, navigate to <https://gp.cs.odu.edu/>
2. You will be directed to a login page where you can download the Global Protect client:

The screenshot shows the GlobalProtect Portal login page. It features a small ODU logo in the top left corner. The title "GlobalProtect Portal" is centered. Below the title, there are two input fields: "Name" with the placeholder text "\$CS_CREDENTIALS" and "Password". A "Login" button is positioned below the password field.

3. Sign in with your ODU CS account credentials (note, this is a separate login from your MIDAS credentials)
4. Click on the download link for the client that is appropriate for your system.

The screenshot shows the GlobalProtect Portal download page. It features a small ODU logo in the top left corner. The title "GlobalProtect Portal" is centered. Below the title, there are three blue underlined links for downloading the GlobalProtect agent: "Download Windows 32 bit GlobalProtect agent", "Download Windows 64 bit GlobalProtect agent", and "Download Mac 32/64 bit GlobalProtect agent". Below the links, there is a block of text providing instructions for each operating system: "Windows 32 bit OS needs to download and install Windows 32 bit GlobalProtect agent.", "Windows 64 bit OS needs to download and install Windows 64 bit GlobalProtect agent.", and "Mac OS needs to download and install Mac 32/64 bit GlobalProtect agent."

5. Go through prompts to install the Global Protect Client (administrator permissions may be required)

Confirm Installation

The installer is ready to install GlobalProtect on your computer.

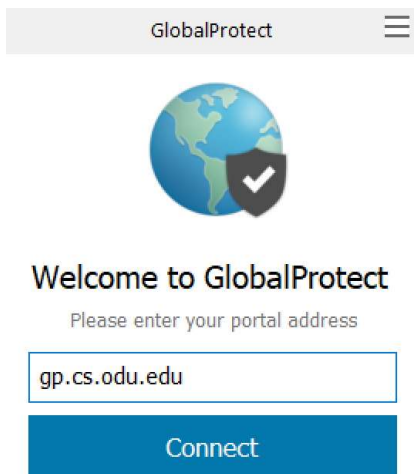

Click "Next" to start the installation.

Cancel

< Back

Next >

6. Open the Client and enter 'gp.cs.odu.edu' as the portal address

- When prompted, again enter your ODU CS account credentials to connect to the VPN

GlobalProtect 

Sign In

Enter login credentials

Portal: gp.cs.odu.edu
