

SHARPS MANAGEMENT™

by HealthFirst®

The only solution with dentistry in mind.

Fill it. Seal it. Return it. Done.

Sharps Management™ by HealthFirst makes disposing of your sharps waste easy. Simply fill your container and use the included prepaid return box to ship it out for disposal.

No Contracts, No Excess Inventory, No Expensive Pickup Service.

Being locked into a long-term contract for sharps disposal that charges you whether you fill the containers or not is expensive and takes away your ability to control costs. At HealthFirst, we believe you should be in control and should only pay for what you use. With the Sharps Management program, there are **no contracts, no hidden fees, and no surprises**. One low price includes the cost of the container, shipping and waste disposal service. Buy as many as you need and send them off for disposal on your schedule.

No Paper, No Problem. Monitor your sharps waste with OnTraQ®.

Build a process for your staff for regular sharps waste disposal, receive digital certificates of destruction, and increase your overall level of compliance with the OnTraQ® Compliance Manager from HealthFirst. OnTraQ is a value-added service from HealthFirst to its customers at no additional charge.

Product Advantages:

- No contract, no monthly minimum orders required
- Lowest cost of ownership
- Small footprint
- Online reporting and archiving via OnTraQ
- Multiple containers sharing one return ship back box to maximize cost savings
- OSHA compliant containers with easy to use features

Product Features:

1-Quart Container:

- Accommodates easy one-handed disposal of sharps.
- Easily portable within the practice.
- Hinged opening top that guards hands or fingers from entering container.
- Features an easy to use final lock mechanism to prevent opening after container is full.

5-Quart Container:

- Forced horizontal drop.
- Counterbalanced door.
- Anti-kickback feature.
- Shuts off when full.
- Easy to use final lock tabs to prevent opening after container is full.

2-Gallon/3-Gallon Container:

- Adjustable rotor lid accommodates a variety of sharps sizes.
- Restricted access container opening provides temporary and permanent closure.
- Rectangular shape convenient for space conscious placement on countertops.

8-Gallon/18-Gallon Container:

- Large container used to ship back smaller containers that do not have a disposal service tied to the container.
- More economical than shipping individual containers in their own shipping boxes.
- Ideal to help you dispose of your old sharps containers.

	1 Quart	5 Quart	2 Gallon (8 Qt)	3 Gallon (12 Qt)
Carpules/Needles Combination	70/ 50	300 / 200	560 / 400	840 / 600
Carpules/Needles per Quart	70/ 50	60 / 40	70 / 50	70 / 50
Patients	35 - 40	150 - 175	280 - 320	420 - 480

8-Gallon/18-Gallon Container Capacities:

An 18 gallon container has a capacity to hold:
 (4) 2 gallon containers (plus room for (4) 1 quart containers)
 OR (6) 5 quart containers OR (24-26) 1 quart containers.

A 1 quart container can hold both 70 carpules and 50 needles, which is enough room for the output of 35-40 patients.

An 8-Gallon container has a capacity to hold:
 (2) 2-gallon containers OR (3) 5Qt containers
 OR (15) 1Qt containers
