# Medical Emergency Readiness

Preparation, the right equipment, and the right medications save lives.

HealthFirst

Medical emergencies happen.
The Healthfirst Medical Emergency Readiness Program
helps you be ready and stay ready.

Predictable Annual or Quarterly Payment Plan
• All medication replenishment including shipping and disposal
• Single dose supply saves money over purchasing medications in box quantity
• Fully complaint with DSCSA labeling requirements for single units of medication

Automatic medication replenishment prior to expiration
• Medications always up to date, reducing risk
• Saves time spent sourcing individual medications
• Reduce manual inspection errors
• Replacement of medications used in emergency event
  (up to two per year)

OnTraq compliance portal
• Saves kit inspection time, keeps you prepared for audit
• Confidence that medications are current and ready for use

Training with CE credits/certification

"The emergency should be the only thing that is unplanned, all of the rest is up to you. Preparation, the right equipment, and the right medications save lives."

– Dr. Arthur Pancioli, Professor of Emergency Medicine, University of Cincinnati
