

Sharps Management

SHARPS AND MEDICAL WASTE MAILBACK SOLUTIONS

Helping dental offices cost effectively manage sharps and medical waste with mailback solutions.

No Contracts, No Monthly Minimums Required

Being locked into a long-term contract for sharps disposal that charges you whether you fill the containers or not is expensive and takes away your ability to control costs. With Sharps Management mailback solutions, there are no contracts, no hidden fees, and no surprises. One low price includes the cost of the container, shipping and waste disposal service.

Maximize Your Savings with Mailback

Mailback solutions for your sharps and medical waste keeps your costs low by only sending in your sharps containers for disposal when they are full. Buy as many as you need and send them off for disposal on your schedule.

OnTraq

OnTraq, HealthFirst's practice readiness application, reduces the risks, headaches and costs of dental waste regulatory compliance. It dynamically shows what sharps products you have active in the office and those that have been returned for disposal. Rely on OnTraq's smart automation for dashboards, digital processing certificates, compliance reports and task management.
