

Pharmaceutical Recovery Services

DEA compliant recovery and processing solutions for pharmaceutical waste including Schedule II-V controlled substances

Pharmaceutical Recovery Services

PHARMACEUTICAL MAILBACK SOLUTIONS, INCLUDING CONTROLLED SUBSTANCES

HealthFirst Environmental has partnered with Reliable Pharmaceutical (RP) Returns to provide you with a smart, compliant, and economical way to manage your non-controlled and Schedule II-V controlled substances using DEA compliant mailback services - no contracts required!

This service includes online access to a proprietary Client Returns Portal interface, which allows you to prepare and print DEA required waste manifests prior to return shipment. All DEA paperwork and waste processing is conveniently provided by RP Returns.

YOU PROVIDE THE BOX, WE PROVIDE THE DOCUMENTATION

This service allows you to size your return box based on the amount of pharmaceutical waste you need to return for processing. Simply choose a generic cardboard box that you have on hand that is large enough to hold your waste pharmaceuticals for return shipment. Complete and print your DEA Forms and shipping label from the online interface. Attach to the box for return shipment and waste processing.

The screenshot displays the 'Schedule Drug Inventory Form' interface. At the top, it shows the HealthFirst Environmental logo and the title 'Schedule Drug Inventory Form'. Below this, there's a navigation bar with 'User Home', 'Contact Us', 'Sign Out', and 'Tutorial'. The main content area is titled 'Form 41 View | Return # 143168'. It features a 'PRINT FORM' button and a 'Complete Form' button. A table with the following columns is visible: DEA Class, Item Name, Strength, Form, Full Pack Qty, Full Pack PKG Size, Partial Pack Qty, Partial Pack Cnt, and NDC #. Below the table, there are input fields for 'NDC# or NADA# Search:' (with value 68188-137-01), 'NDC# or NADA#' (with value 6818813701), 'DEA Class' (with value II), 'Description' (with value Methylin 10mg tab), 'Total Number of Full Packages' (with value 1), 'Full Package Size' (with value 100.00), and 'Total Number of Partial Packages' (with value 0).
