

- BenefitWallet® cannot reimburse based on estimated costs.
- Receipts must show actual cost, not an estimated cost.
- To avoid overpaying up-front for services rendered, ask your provider if you can be billed for the service after the claim has been processed by your insurance carrier.

Receipts

Don't leave your doctor's office without a receipt that includes:

1. Name and address of the provider or merchant
2. Name of person who incurred the expense
3. Actual date of the appointment or service
4. Procedure code or description of the expense
5. Amount charged for the appointment or service
