

Why You Need ShipJunction

ShipJunction is a multi-carrier shipping system focused on the automation of shipping related processes/workflows/steps.

Fast high-volume shipping, bulk fulfillment and EDI order fulfillment are our specialties. We produce all the documents required to ship an order. Along with the rate-shopped shipping labels, we also generate the branded trading partner packing slips, pick lists and GS1-128 labels.

Who We Are

ShipJunction is a multi-carrier shipping system that lets retailers and wholesalers tackle all their shipping needs in one comprehensive portal. Inefficiencies bother us. We are an engineering-focused team that is continuously looking to build better shipping and fulfillment solutions that scale and grow with your business.

How We Extend NetSuite

We provide the tools to leverage all the available data in NetSuite to create automated fulfillment and shipping processes specifically tailored for your warehouse and operational requirements.

Leave the repeatable decisions to us- we'll produce all the documents required to ship out an order, making sure to include any necessary branding and include any channel specific labels.

Features

- Faster automated shipping. It's a 1 click/scan operation to print all required labels for all orders.
- Optimal carrier and service method for each package based on business rules
- Bulk fulfillment: pre-print all labels and allocate optimized pick waves
- Fast individual shipping label printing
- EDI fulfillment: Branded trading partner packing slips and UCC128 labels
- Automated packing: using algorithmic box assignments, we make sure the right products are always going into the smallest box

Benefits

- Lower shipping and labor costs
- Efficiently manage increases in order volume without having to increase warehouse labor
- Automatically generate and print shipping labels and documents
- Route each package the best way
- Streamlined warehouse fulfillment

Our Solution

ShipJunction is a multi-carrier shipping system that generates all the required documents, enables bulk fulfillment, has automated best way routing, and cartonization all in one comprehensive portal- so you can focus on making your business great.

We will streamline your fulfillment and save you money on labor and shipping costs.
