

Classic Divan Base Assembly Instruction Guide

Carefully unpack your divan.
Do not use a knife to cut through packaging.

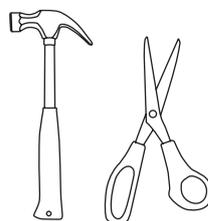

Top tips, important safety information and recommendations

Assembly: 2 person

Required area: 2.5 x 2 metres

Tools Required: Scissors, Hammer / mallet

Important:

Please check that all the parts are present and read the instructions thoroughly before commencing with assembly and retain them for future reference.

It is important to inspect all items BEFORE assembly, if for any reason you need to return this item, you must return it in its original packaging. Assembled items CANNOT be returned.

Tips before you start:

We recommend that all items are assembled close to the place they will be in use and on a protective surface to avoid any unnecessary movement or contact that may damage the product.

For ease during assembly identify the parts required before commencing each step, taking care to avoid over-tightening the fittings as this may damage the furniture.

Safety:

Take extreme care when handling and lifting heavy products to avoid personal injury or damage to the item. Keep children well away from the assembly area due to the heavy products as well as choking hazard from small components.

Warning:

Please use this product for the specified purpose only, it is not to be stood on. If parts are missing, broken, damaged or worn stop using the product until fully repaired.

Failure to follow safety and warning information could result in serious injury.

Recommendations:

Please periodically check all fittings and re-tighten if necessary.

To avoid fire risks, warping and surface de-lamination keep away from strong heat sources and never allow liquid to remain on your furniture. To clean, lightly dampen a soft cloth and wipe, buffing with a dry clean cloth.

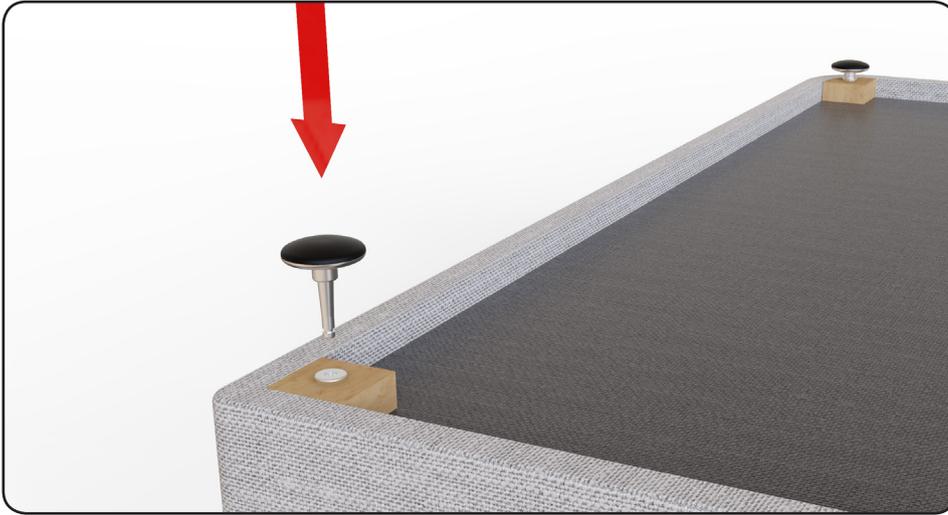

Supplied Fittings

33SR-14C 2019-08-19

C	D	G
 '90cm' x 4 '120-180cm' x 8	 '120-180cm' x 2	 x 4

Please check you have the correct fittings and read through before commencing with assembly.

Step 1

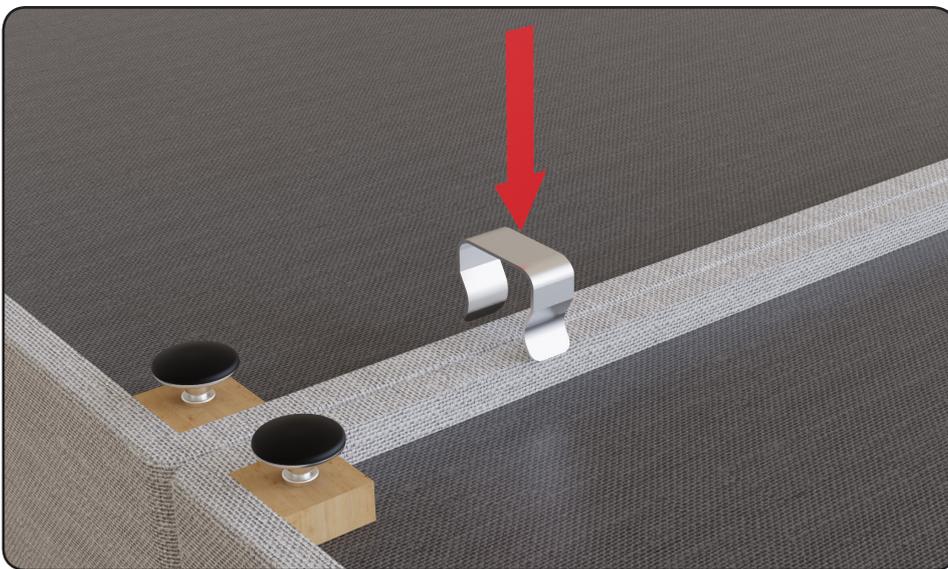

Turn both base units upside down, insert 8x glides (C) into sockets.

Do not hit with hammer!

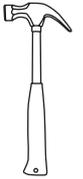

* for 90cm base use 4

Step 2

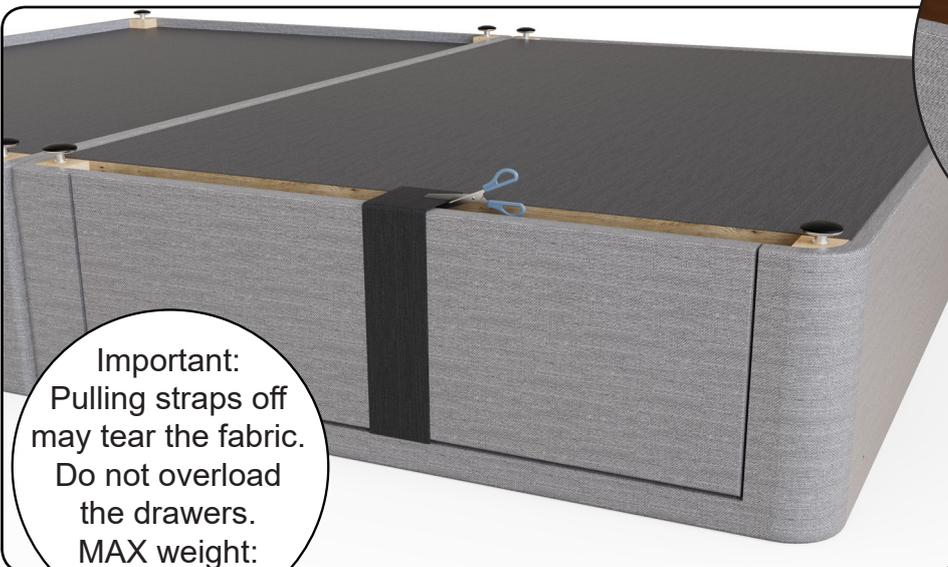

Using the heel of your hand push 2x connector (D) into position.

You may need to use a hammer for this

Step 3

Important:
Pulling straps off
may tear the fabric.
Do not overload
the drawers.
MAX weight:
12.5KG

To release drawers carefully cut restraining straps and trim the excess.

Carefully turn your bed over
Note: this is a two person lift
