180Kg GREASE PUMPS STANDARD DUTY

High-Pressure Grease Pump Part Number: 9979H

- 180kg grease kit
- Double acting for high flow.
- Approx. delivery: 2kg's per minute
- Complete with 50:1 ratio RAM pump, drum cover, follower plate, 8ft of hose, Z swivel and control valve.

180kg Grease Kit Part Number: 428262

- 55:1 ratio grease pump develops up to 7,950psi
- Integral filter eliminates the chance of pump tube contamination
- Lightweight ergonomic, cast alloy, grease control valve 2m hose and z swivel included
- Ideal for busy workshops where greasing is undertaken all day, every day

Alemite 180kg Air Operated Grease Pump Part Number: 9950-D1

- 50:1 ratio double acting grease pump capable of delivery rates of up to 2kg per minute
- Spool valve operation reduces maintenance costs
- Can service up to three hose reels
- 1/4" NPT (f) air inlet and 3/8" NPT (f) grease outlet
- Modular design maximises operating time

Heavy Duty Air Operated Grease Pumps
Part Number: 402025

- Designed and manufactured with reinforced foot and pressure valves for true high pressure greasing
- 60:1 pressure ratio
- Flow rates of up to 1.2kg per minute
- Maximum grease pressure up to 7,700psi
- Minimum air pressure of 42psi
- 3/8" BSPT (f) air inlet
- 3/8" BSP (f) grease outlet
- Heavy duty 75mm diameter air motor with 75mm long air piston stroke
- Integral grease filter helps protect the pumptube assembly from foreign particle contamination
- Heavy duty cast alloy air motor head assembly and outlet body
- Exhaust muffler helps reduce workshop noise
- Precision machined hardened piston, foot and pressure valves
- Height 1515mm, weight 8.5kg
