NORTHWEST ARKANSAS

PRIORITIZING BELONGING

Over the last several decades, Northwest Arkansas' population has skyrocketed, and the region has become increasingly diverse. These trends are expected to continue for the foreseeable future.

The Northwest Arkansas Council, through its EngageNWA program, works with partners to foster belonging for everyone who calls the region home. Recognizing differences and striving for connectedness and understanding contributes to an environment where people feel included, and this encourages people to put down roots and give back to their communities in meaningful ways. In turn, this will build regional economic strength and cultural richness that benefits all.

Over the past few years, the Council's key efforts to foster belonging include the following: expanding access to diversity, equity and inclusion (DEI) training; uplifting the efforts of local organizations working for diverse communities; collecting and sharing data to raise awareness about the region's diverse communities; establishing the NWA Leadership Pledge to address systemic racism and create a more just, equitable and inclusive region; and providing more opportunities to strengthen connections across the region. The Council will build upon this foundation and expand its efforts internally to ensure that its community-focused workstreams, e.g., workforce housing, workforce development, health care and others, build equity and inclusion into their framework.

To that end, the Council commissioned a study to understand the impact of its work in the region, particularly in relation to DEI. That study has identified several components for improvement that the Council will adopt as part of a new DEI strategy to be released later this year, to include:

- **Increasing diversity within Northwest Arkansas Council membership.**
- **Promoting diverse representation at Council convenings.**
- **Providing DEI-focused training and learning opportunities internally and for the community.**
- **Establishing a DEI-focused advisory committee.**
- **Developing and implementing equitable hiring and retention policies.**
- **Promoting inclusive, equitable policies at the local, state and federal level.**

The Council remains committed to ongoing improvement and working to foster belonging so that growing prosperity and opportunity can be shared by all those who choose to call Northwest Arkansas home. This work will promote success for all residents and act as a magnet for recruitment and retention of talent, both at home and across the globe.

POPULATION GROWTH

Northwest Arkansas' population has ballooned over the past decade, increasing by 20% since 2010. According to the 2020 census, the region experiences a net population gain of 30 people per day. By 2026, the population is expected to grow by an additional 10%.

Between 1990 and 2010, the region's racially and ethnically diverse populations increased from less than 5% in 1990 to nearly 24% in 2010. Since then, diversity has continued to increase. In 2021, the region was over 29% diverse and is expected to grow to over 32% by 2026. The region's Hispanic/Latino population saw the largest gains, accounting for over 17% of the population in 2021 and forecasted to grow to 19% by 2026.

School districts in Northwest Arkansas are also experiencing rapid enrollment growth. In many cases, the diversity in these school districts is growing faster than the diversity of the overall region's population. These numbers demonstrate that school districts in Northwest Arkansas, like those across the nation, are often on the frontline of demographic change. Rogers and Springdale school districts, for example, are both now majority students of color.

HOW TO USE THIS REPORT

Businesses and organizations across the region are looking to become places where everyone can participate and contribute fully. The region's growing diversity is evident in every community, yet there is more work to be done to ensure that diversity is proportionately represented at all levels. This report was developed as a tool to help individuals and teams create change within their organizations. The data can inform organizational planning, decision making and metrics to track progress. Additional research is needed to track outcomes on shared prosperity and quality of life for the region as a whole.

Although this report focuses on growth of racial and ethnic diversity, there is also significant growth in other diverse populations. A national report by the Human Rights Campaign analyzing results from the U.S. Census Bureau's Household Pulse Survey indicates the LGBTQ+ community comprises nearly **8%** of the total U.S. adult population, a number that has doubled over the last decade. A Gallup poll released earlier this year shows the number at **7.1%**. The increase is in large part due to the number of Generation Z adults who identify as LGBTQ+, which is more than **1 in 5 (or 21%)**, though the LGBTQ+ community includes people of all ages.

Building an inclusive and equitable workplace means honoring and celebrating the myriad of differences beyond what is highlighted in this report. In addition to race, ethnicity and sexual orientation, those include characteristics such as age, gender, mental and physical abilities, nationality, education, religion, income, work experience, language skills, geographic location, family status, communication style, military experience, learning style, economic background and work style.

“ROOTED IN THE KNOWLEDGE THAT WE ARE SO MUCH MORE, WHEN THE ‘WE’ IN ‘WE THE PEOPLE’ IS NOT SOME OF US, BUT ALL OF US. WE ARE GREATER THAN AND GREATER FOR THE SUM OF US.”

— **HEATHER MCGHEE**

The Sum of Us: What Racism Costs Everyone and How We Can Prosper Together

PEER REGIONS

The Northwest Arkansas Council identified a select group of high-performing peer regions that were used as benchmarks in its regional strategy. Given the importance of diversity and inclusion to local economies, diversity growth is included from the following regions: Austin-Round Rock, Texas; Des Moines-West Des Moines, Iowa; Durham-Chapel Hill, N.C.; Madison, Wis.; Provo-Orem, Utah; and Raleigh, N.C.

While Bentonville is the fourth largest Northwest Arkansas city, its growth rate is the most staggering. From 2010 to 2020, Bentonville grew by 53%. By 2026, the city is expected to have grown an additional 16%. Bentonville is becoming increasingly diverse. In 2021, the city was nearly 31% diverse — an increase of 8% since 2010. Bentonville is expected to grow to more than 34% diverse in 2026. Most notably, the Asian population has achieved significant growth since 2010 where it accounted for 8% of the population. In 2021, Asians accounted for nearly 12% of the population and are expected to account for 14% by 2026. Bentonville's Asian Indian population grew by 239% from 2011-2018. 17% of Bentonville's population is foreign born and 14.6% of families speak a language other than English at home.

BENTONVILLE

SCHOOL DISTRICT

2021 TOTAL ENROLLMENT: 18,536

RACE/ETHNICITY FOR 2021-2022 SCHOOL YEAR

The Bentonville School District is the region's second largest school district in terms of enrollment. The district has opened 11 new schools since 2010 to accommodate the rapidly-growing population. Diverse students account for over 29% of enrollment which matches the demographics of the city as a whole. Hispanic/Latino students account for nearly 12% of total enrollment. Asian students account for nearly 8% of total enrollment — the largest Asian population in any one school district in the region. Students in Bentonville speak 63 languages, including Spanish, Telegu, Tamil and Hindi.

Fayetteville remains the largest Northwest Arkansas city, and is now the second largest city in the state. The population increased more than 24% from 2010 to 2021 and is expected to increase another 8.5% by 2026. Each of the city's diverse populations has seen steady growth since 2010 and is expected to continue that trajectory into 2026. Fayetteville's diverse populations account for 24% of the city's population. In 2026, they will account for over 27%. The percentage of foreign born residents in Fayetteville is 5.8%, and 8.4% of residents speak a language other than English at home.

Fayetteville has a 6.8% Black/African American population, which is the largest concentration of that group's population in Northwest Arkansas. The city continues to see the largest growth in diversity in the Black/African American population as well as those identifying as two or more races.

The Fayetteville School District is the region's fourth largest school district in terms of enrollment. The school district's diverse student enrollment percentage outpaces the city's diverse population percentage with 36% of students identified as diverse compared to the city's 24%. It's notable that students speak 55 languages in Fayetteville schools, including Spanish, Arabic, Marshallese, Chinese and Swahili. The children of University of Arkansas faculty and students contribute significantly to the diversity of the school district's population.

Springdale has the second largest population in Northwest Arkansas. The population increased by more than 20% from 2010 to 2021 and is expected to increase an additional 7% by 2026. Each of the city's diverse populations have grown steadily since 2010 and are all expected to continue similar growth into 2026. 23.4% of Springdale residents are foreign born and 40% of residents speak a language other than English at home.

Springdale's Hispanic/Latino population grew by more than 3% from 2010 to 2021 and is expected to grow by an additional 3% by 2026. Springdale also has the largest population of Pacific Islanders in Northwest Arkansas, which includes a large population of people from the Marshall Islands. Pacific Islanders accounted for over 8% of the population in 2021 and are expected to approach 10% in 2026.

DID YOU KNOW?

New legislative maps developed based on the 2020 U.S. census numbers show two new majority-minority districts in the Arkansas House, including the state's first predominantly Hispanic district in Northwest Arkansas. District 9 includes a large portion of east Springdale.

LOCAL HIGHLIGHTS

ECONOMIC DEVELOPMENT

ENTREPRENEURSHIP

In 2020, nearly **25%** of angel and seed investment dollars went to companies founded by BIPOC (Black, Indigenous, People of Color) in Arkansas (**3%** is the national average). Yet **100%** of venture capital invested went to companies founded by white men, indicating efforts focused on increasing equity continue to be important in our entrepreneurial ecosystem.

Fast Company named **NWA No. 2** in the top 10 metro areas for **minority entrepreneurs**.

Northwest Arkansas ranks **No. 2** in the U.S. when it comes to women's promotions into management roles in retail and consumer goods, according to LinkedIn News.

Entrepreneurship for All (EforAll) Northwest Arkansas is accelerating economic and social impact through inclusive entrepreneurship in Northwest Arkansas. EforAll offers free one-year business training programs to support under-represented entrepreneurs at every stage of their business lifecycle. EforAll's four cohorts consist of 97% women, 74% BIPOC, 6% LGBTQ+ and 44% immigrants.

Cureate is a for profit, woman-owned small business that is building an empowered food & beverage supply to meet a changing consumer demand. CEO Kim Bryden relocated Cureate to NWA from Washington, D.C. in 2021 as part of the Life Works Here program. Cureate's 2021 fall cohort included 60% womxn-owned businesses and 60% BIPOC-owned businesses. The spring 2022 cohort included 100% womxn-owned businesses and 25% BIPOC-owned businesses.

TALENT ATTRACTION

The **Life Works Here** relocation incentive program targets remote workers. The incentive campaign received nearly **66,000 applications** from across the world. Over 65% have no connection to Northwest Arkansas, and of the 87 recipients to date, over **38% represent BIPOC**.

LOCAL HIGHLIGHTS

WORKFORCE DEVELOPMENT

The availability of skilled talent (and the ability to attract more) is the top factor for businesses today as they determine where to invest. Developing talent starts early and involves collaboration with parents, educators, businesses, and community and state leaders. The Northwest Arkansas Council works to ensure that there are sufficient education and training opportunities available to support our workforce.

The LIFE (Learning, Improvement, Fun, and Empowerment) program at NorthWest Arkansas Community College connects and supports area high school students who may or may not be considering college after graduation. Their mission is to empower and create desire and access to quality higher educational opportunities for students, to promote student success during and after their enrollment in the LIFE program, and to create an atmosphere of acceptance and cultural celebration by linking all communities and peoples.

In Northwest Arkansas the number in new **foreign-born residents grew by nearly 33%** between 2010 and 2019, yet there has been a dramatic drop in foreign labor supply since the start of the pandemic, according to a 2021 report by Heartland Forward.

Northwest Arkansas has more than 10,000 open jobs seeking a wide range of skills.

It is often necessary for the local workforce to acquire new expertise to fill many of these jobs.

UPSKILL NWA

In 2021, **Carol Silva Moralez** was appointed **CEO of UpskillNWA**, an organization focused on connecting the region's untapped workforce to skilled positions in high-demand industries and addressing barriers to access. The first cohort of 100 participants is focused on the healthcare sector and launched in January 2022. UpskillNWA provides assistance with tuition and all academic fees, as well as connects participants to additional wraparound services (rental assistance, child care, transportation, etc.) that will allow regular class attendance. 24% of the 2022 cohort is Hispanic/Latino, 9% is Marshallese, 5% is Black/African American, 3% is Asian and 2% is American Indian.

LOCAL HIGHLIGHTS

HOUSING

WORKFORCE HOUSING CENTER

The workforce housing center launched in 2021 and is focused on the emerging issue of housing affordability in Benton and Washington counties in Northwest Arkansas. The goal is to create a variety of well-designed housing options and mixed-income neighborhoods for the region's workers and their families.

The center will collaborate with community partners to develop a strategic plan specific to housing needs and priorities. It will promote housing development in proximity to employment centers, lifestyle amenities and essential services.

DID YOU KNOW?

A Zillow analysis of data from the Home Mortgage Disclosure Act revealed disproportionate denial rates of mortgage applicants in Arkansas:

Black homeowners had the lowest approval rate to refinance conventional loans by lenders nationwide in 2020, as well as the smallest number of applicants.

Banco Sí

As the newest brand of the **Signature Bank of Arkansas**, **Banco Sí** is Arkansas' first fully bilingual banking institution with every employee able to provide assistance to customers in both English and Spanish. The branch will be located in downtown Rogers and celebrate its grand opening in September 2022 as part of Hispanic Heritage Month. Signature has been providing a full line of financial services to Arkansas residents since 2005, and this latest endeavor strives to create an equitable experience for a historically underserved community.

LOCAL HIGHLIGHTS

HEALTH CARE

The Northwest Arkansas Council's Health Care Transformation Division came together to address disparities related to COVID-19 with \$7 million in CARES Act funding through testing and contact tracing. During the summer of 2020, the Centers for Disease Control & Prevention and the National Institutes of Health found that **the Marshallese population comprised 19% and the Latino population 45% of all COVID-19 infections in Northwest Arkansas.** The Marshallese community makes up less than 3% and the Latino community accounts for 17% of the total population.

The Marshallese also accounted for **14% of all COVID-19-related hospitalizations** in the area and **suffered 372.4 deaths per 100,000 people**, compared to the regional average of 5.10 per 100,000. Through the COVID CARES Act, University of Arkansas for Medical Sciences (UAMS) worked with partners throughout the state to provide comprehensive education, contact tracing and resources to Marshallese and Hispanic communities, providing case navigation for more than 10,000 Marshallese and Hispanic residents.

OUR healthy ALLIANCE

The Northwest Arkansas Council is partnering with Benton County and UAMS on the Our Healthy Alliance program to focus on addressing health disparities in Latino and Marshallese populations in Benton and Washington counties.

The team is collaborating on developing and implementing a culturally and linguistically appropriate health information and education campaign that increases appropriate health literacy practices and intervention resources for the Latino and Marshallese communities.

A website is under development and a large-scale marketing effort will run over the next year to improve health literacy in Northwest Arkansas.

LOCAL HIGHLIGHTS

EDUCATION

TEACHER WORKFORCE

The vast majority of teachers in Benton and Washington counties are **white (94%)** while a rapidly growing portion of students are **racially and ethnically diverse (42%)**.

Over the last few years, several of the region's school districts have taken action to increase the diversity of their staff.

The Springdale School District created a citywide advisory committee focused on increasing the diversity of certified staff members within the Springdale schools.

Bentonville School District created a diversity hiring committee to attract and hire qualified teacher candidates and administrators to Bentonville Public Schools. The district is also encouraging students of color to participate in teacher education tracks in the district, and actively educating students and teachers on being more culturally aware.

In an effort to increase the diversity of their teaching staff to better reflect the student body and community, the Fayetteville School District's strategic plan outlines goals of a **50% increase** in the number of minority teachers and **8.1% minority staff** by 2023. The district had already achieved **11% minority staff** in the 2020-2021 school year.

PROJECT REACH

Project REACH fosters teacher effectiveness and equity in meeting the need of a rapidly-growing English learner (EL) population in the Springdale School District (SSD) and targeted schools. In an effort to address the disparity in teacher-student diversity, a "Grow Your Own" initiative targets bilingual/bicultural paraprofessionals in the Springdale district to upgrade their qualifications and skills by earning an Associate of Art and/or Bachelor of Science in Education in elementary education with an ESL endorsement. These future teachers have EL insider's knowledge from multiple years of serving ELs and their families in the district and many reside in the community where they work.

ENGAGE nwa

EngageNWA continues to provide frequent training and learning opportunities to hundreds of community partners on topics ranging from historical systems and policies to the business case for DEI and taking action to address inequities in the workplace today. Some program highlights include: Racial Equity Institute's two-day racial equity training; six- and eight-week-long community learning cohorts in partnership with the UA Walton College of Business focused on gaining skills to talk about race and take action to address inequity in meaningful ways; a community conversation with author Richard Rothstein to discuss his book *The Color of Law*; trainings about the historical significance of the Tulsa Race Massacre and how it impacts us today; and additional learning opportunities focused on Juneteenth, Martin Luther King, Jr. Day of Service and more.

NORTHWEST ARKANSAS LEADERSHIP PLEDGE

Diversity and inclusion are vital to the well-being and success of our employees, communities, and businesses. We stand committed to fostering and expanding a more just, equitable and inclusive region for all by purposefully addressing systemic racism in the communities in which we operate.

In pursuit of the objective of a diverse and inclusive community, we are committed to the following guiding principles:

Education and Training

Supporting educational initiatives designed to provide a deeper understanding of the historical underpinnings of systemic racism and help identify and eliminate unconscious bias. We will continue to make our workplaces safe environments for such education by fostering open, frank and respectful discussions about these complex issues.

Community and Workplace

Working to ensure that our workplace environments are free of discrimination and that we advance the hiring, development, retention and promotion of diverse talent and invest in initiatives designed to reduce the effects of prejudices in our communities at the local, regional and national level.

Public Policy

Supporting administrative and legislative measures that advance equality and justice and further the acceptance and advancement of all individuals, regardless of personal demographics including race, gender, sexual orientation or religious beliefs.

Continuous Improvement

Engaging thoughtfully on the issues by listening to and learning from each other, by promoting transparency through sharing practices that have worked and have failed, and by helping to keep each other accountable by encouraging the continued enhancement and evolution of policies and strategies to help overcome challenges and improve well-being for all.

Here is a list of the 226 organizations that have signed the pledge to date:

WELCOMING WEEK NWA

PRESENTED BY ENGAGE

Welcoming Week NWA is an annual event that brings together NWA Leadership Pledge supporters and the broader community to build strong connections and affirm the importance of welcoming and inclusive places in achieving collective prosperity. Welcoming Week NWA is an opportunity for organizations and individuals to build connections and strengthen relationships across our diverse communities and take other welcoming actions with the goal of fostering and expanding a more just, equitable, and inclusive Northwest Arkansas. While the event is only a week long, the goals are long-term. Welcoming Week NWA serves as an impetus to drive action all year long.

TRU Powered by IDEALS

In December of 2021, TRU Powered by IDEALS launched the second phase of TRUE Northwest Arkansas, a community-based initiative that began in 2018 to advance diversity, equity and inclusion in Benton and Washington counties. With funding from the Walmart Foundation and the Walton Family Foundation, the IDEALS Institute at the University of Arkansas has reimagined the program as TRU Powered by IDEALS and is providing 100 regional nonprofit organizations with resources to become more diverse, equitable and inclusive. The program includes three distinct cohorts: TRAIN is for nonprofits new to DEI work, RECHARGE will support the ongoing efforts of nonprofits already invested in DEI work, and UPLIFT will build the organizational capacity of nonprofits led by and for minoritized communities. UPLIFT organizations will receive funds for technical assistance from Arkansas Community Foundation to support their participation during a two-year process.

RESOURCES & ACKNOWLEDGEMENTS

For purposes of this report, all references to Northwest Arkansas refer to the Fayetteville-Springdale-Rogers Metropolitan Statistical Area. This area encompasses Benton, Washington and Madison counties in Arkansas and includes the cities and towns of Avoca, Bella Vista, Bentonville, Bethel Heights, Cave Springs, Centerton, Decatur, Elkins, Elm Springs, Farmington, Fayetteville, Garfield, Gateway, Gentry, Goshen, Gravette, Greenland, Highfill, Hindsville, Huntsville, Johnson, Lincoln, Little Flock, Lowell, Pea Ridge, Prairie Grove, Rogers, Siloam Springs, Springdale, Springtown, St. Paul, Sulphur Springs, Tontitown, West Fork and Winslow.

McDonald County, Missouri was removed from the region's MSA in 2018 by the federal Office of Management and Budget and is therefore not included in this report. Primary information used in this report comes from the United States census and Environmental Systems Research Institute (Esri), an international supplier of information about community economies, populations, demographics and jobs.

According to a survey from the U.S. Census Bureau, Blacks/African Americans, Hispanics/Latinos and Native Americans were undercounted in the 2020 census while overcounting non-Hispanic white Americans. Latinos were omitted from the 2020 census at a rate more than three times higher than in the 2010 census, at nearly 5% versus 1.5%. Blacks/African Americans were undercounted at a rate of 3.3% in the 2020 census, compared to 2.1% in 2010. For Native Americans living on reservations, the 2020 census presented an undercount of 5.6% compared to 4.9% in 2010. People who identified as white but not Hispanic were overcounted at nearly double the 2010 rate, increasing from 0.8% to 1.6%. Overall, the estimated number of people not counted is 2.8 million higher than in 2010.

The Marshallese community in Northwest Arkansas has historically been undercounted. Census numbers indicate the number of Pacific Islanders living in the region is fewer than 10,000, while Eldon Alik, consul general for the Marshallese Consulate in Springdale, estimates the number is 15,000 to 20,000.

References in this report to "diversity" or "diverse populations" includes racially and ethnically diverse individuals also known as BIPOC (Black, Indigenous, People of Color). In addition, for purposes of this report, individuals of Hispanic plus Latino origin, including both white and non-white Hispanics, are included within the definition of diverse populations.

Information about enrollment and diversity of the student populations in Northwest Arkansas school districts was collected in May 2022 from the districts and the Arkansas Department of Education. The following school districts are represented: Bentonville, Decatur, Elkins, Farmington, Fayetteville, Gentry, Gravette, Greenland, Lincoln, Pea Ridge, Prairie Grove, Rogers, Siloam Springs, Springdale and West Fork.

For purposes of this report, "English learners" are defined as students from a linguistic background other than English who are learning English and academic content in English simultaneously.

"Languages spoken" refers to primary languages spoken in the students' home. "Origins of birth" indicates the country in which the student was born.

Special thanks to the Bentonville, Fayetteville, Rogers, Siloam Springs and Springdale school districts and Downtown Springdale Alliance, Visit Rogers, Downtown Bentonville Inc., City of Siloam Springs, Visit Bentonville and CACHE for participating and providing photography for this report.

The Northwest Arkansas Council is thankful to the Walmart Foundation, Walmart and Walton Family Foundation for their generous support of EngageNWA and dedication to advancing diversity, equity and inclusion in Northwest Arkansas.
