- ✓ Planning & Scheduling Online Tests

White Label IT Platform

Expand your brand Pan-India:

- Get your own branded testing platform on your preferred URL
- Create your own tests & material for your students - standalone or with TF content
- Integrate recorded video lectures seamlessly
- Get integrated Purchase page & Payment Gateway - start selling courses online

TESTIMONIALS

We are associated with Test funda since last 8 years. The material provided and test series are very relevant and have helped us to produce very good results in Central India. The Testfunda team is very helpful and proactive in resolution of any queries. I would like to thank team Testfunda for their support and great service.

Abhishek Gupta 

It's been 3 years working with Test Funda and it's a pleasure working with them. They have well researched study material. Brilliantly conducted and a very close to actual CAT exam test series coupled with seamless operations being managed by Monish and Varsha makes it very easy to execute the product. Highly recommend anyone looking for any kind of support to execute their any exam related products.

Kushal Bohra 

TestFunda has made teaching hassle free for us as it lets us focus on only teaching without having to worry about the technology part and study material. They have the best technology platform out there. The best thing is that they listen to their clients and provide quick resolution for any issues.

Achal Jain 

Testfunda expedited the launch of a test prep course for BBA exams. Had we prepared the content on our own, it would have taken a lot of time, effort, and energy but thankfully Testfunda came to the rescue. The content is at par and always updated with what comes in the exam and is error-free. Thanks to the Testfunda team!
