Introduction	10
Chapter 1. The period and the territory under estimation	15
1.1. Determination of time borders of the research	15
1.2. Territory of the Russian Federation	17
Chapter 2. Correction of the Censuses Data	20
2.1. The 1926 Census	20
2.2. The 1937 Census	28
2.3. The 1939 Census	31
2.4. The 1959 Census	42
Chapter 3. Population replacement: sources of data	51
3.1. Demographic statistics in 1920-1930	51
3.2. Demographic statistics in 1946-1958	57
Chapter 4. Methods of estimation of the population size and age-sex structure	62
4.1. General principles	62
4.2. Estimations for the USSR	65
4.3. Features of estimations for Russia	72
Chapter 5. The population of Russia: 1927-1940	78
5.1. Population reproduction	78
5.2. Migration	88
5.3. Discussion of the results	94
Chapter 6. The population of Russia: 1946-1959	96
6.1. Migration	96
6.2. Fertility and mortality level	104
6.3. Discussion of the results	107
Chapter 7. Reliability of the results	109
7.1 Population estimates and the tabulation results of the polls for the USSR	109
7.2 The tabulation results of the polls for the Russian Federation	119
7.3 Comparisons of the obtained results and the data on population available earlier	123
Chapter 8. Reproduction of the population of Russia in 1927-1958	130
8.1. Exposition	130
8.2. Reproduction of the population of Russia in 1927-1940	133
8.3. Population of Russia after the World War II	139
8.4. The socialist law of the population	146
Literature	149
Appendix 1. Estimates the Russia's population by age and sex in 1927-1959	157

Appendix 2. Estimates of the number of births and deaths in Russia by sex in 1927-1959 and evaluation of under registration	161
Appendix 3. Estimates of main indicators of the Russia's population dynamics in 1927-1959	164
Appendix 4. Estimates of age specific fertility rate in 1927-1959	166
Appendix 5. Estimates of age-sex specific mortality rates in 1927-1959	167
Appendix 6. Age specific fertility rate according to the 1960 Fertility Survey data	171
Appendix 7. The number of deaths in Russia by age and sex in 1935-1958	173
Appendix 8. The number of arrivals to and departures from urban area of the Russian Federation and other republics in 1946-1958	177
Appendix 9. Distribution of arrivals to and departures from urban area of Russia by age and sex in 1946-1958	178
Historical abbreviations	182

List of Tables

Table 2.1. Estimates of underregistration of the number of children younger 3 in the 1926 Census on the base of comparison with the number of new-born (European part of Russia)	25
Table 2.2. Population of Russia by the 1926 Census data	27
Table 2.3. Correction of the Russia's population size according the 1937 Census data	30
Table 2.4. Comparisons of the results of filling and tabulation of control forms in the 1939 and 1959 Censuses	35
Table 2.5. Population size enumerated by the NKVD in the 1939 Census	39
Table 2.6. Population of Russia by the 1939 Census data	41
Table 2.7. Number of men per 1000 women in the same age by cohorts according the 1959, 1970 and 1979 Censuses data in Russia	44
Table 2.8. Sex ratio at ages 17-23 in selected regions of Russia according to the 1959 Census data (number of men per 100 women at the same age)	46
Table 2.9. Variants of estimations of completeness of new-born registration in Russia on the base of back projection starting at the 1959 Census data	48
Table 2.10. Population of Russia by the 1959 Census data	50

Table 3.1. Percentage of population in the territories with birth and death registration system (within the boundaries before September 17, 1939)	54
Table 3.2. Main vital statistics indicators for Russia in 1927-1940	56
Table 3.3. Main vital statistics indicators for Russia in 1946-1958	58
Table 3.4. Completeness of vital statistics data in the Russian Federation in 1949-1957. Percentage of births and deaths underregistration	61
Table 5.1. Mortality in the regions of Russia in 1932-1934	81
Table 5.2. Estimate of the Russia's population size in 1927 and 1937 on the base of back projection starting at the 1939 Census data conditioned the absence of external migration at various hypothesizes on the levels of birth and death underregistration	87
Table 5.3. Estimates of the number of new-born at various hypothesizes on the levels of deaths underregistration	88
Table 5.4. Total size of selected nationalities in Russia by the census data	91
Table 5.5. Main results of the Russia's population estimations in 1927-1941	94
Table 5.6. Comparison of the results of estimations with the TsUNKhU calculations done in the period before WW II	95
Table 6.1. Migration flows considered in Russia's population estimation (number of migrants in period 1946-1958 by statistical data)	96
Table 6.2. Results of calculations of the number of migrants between Russia and other Soviet republics	99
Table 6.4. Main results of the Russia's population estimations in 1946-1959	107
Table 6.5. Comparisons of the results of estimations with the TsUNKhU calculations for 1950-1958	108
Table 6.6. Comparisons of the results of estimations with the TsUNKhU calculations done in the period before the 1959 Census	108
Table 7.1. Comparison of the results of estimation of the age-sex structure of the USSR population and tabulation of the lists of voters of election to Supreme Soviets of the USSR, to Supreme Soviets of the republics and to local soviets	111
Table 7.2. Comparison of the total number of voters, declared by the Central electoral commission with the results of tabulation of the electoral lists	115

Table 7.3. Comparison of the results of estimation of the age-sex structure of the Russian Federation population and tabulation of the lists of voters of election to Supreme Soviets of the USSR, to Supreme Soviets of the republics and to local Soviets	119
Table 7.4. Comparison of previously available and new calculated life tables	127
Table 7.5. The size of correction of deaths underregistration at age 1 and older	127
Table 8.1. Components of the life expectancy dynamics from 1927 to 1940	135
Table 8.2. Life expectancy dynamics in Russia and in the developed countries	136
Table 8.3. The growth abortion abundance (number of abortions per 100 new-born)	138
Table 8.4. Total fertility rate dynamics in Russia and in the developed countries	138
Table 8.5. Components of the life expectancy dynamics from 1946 to 1958	141

List of figures

Figure 2.1. Corrections of the 1926 Census results	26
Figure 2.2. Corrections of the 1939 Census results	40
Figure 2.1. Corrections of the 1959 Census results	49
Figure 5.1. Expert estimation of net migration to Russia in 1927-1940	92
Figure 5.2. Estimates of underregistration of the number of births and deaths in 1927-1940	93
Figure 6.1. Migrations in "unknown direction" from / to urban area of Russia in 1946-1958	100
Figure 6.2. Estimates of dynamics of the "special contingents"	102
Figure 6.3. Net migration to Russia in 1946-1958	103
Figure 6.4. Sex ratio of new-born and infant mortality in 1946-1958	105
Figure 6.5. Estimates of underregistration of births and deaths in 1946-1958	106
Figure 7.1. The results of tabulation of the lists of voters of the election to Supreme Soviet of the USSR on 10 February 1946 and the estimate of the age-sex structure of the USSR population on the same data in comparing	110

Figure 7.2. The results of tabulation of the lists of voters of the election to Supreme Soviets of the republics on 16 February 1947 and the estimate of the age-sex structure of the USSR population on the same data in comparing	110
Figure 7.3. Estimate of the age-sex structure of electorate on the base total numbers of voters, declared by Central electoral commission; the election to Supreme Soviet of the USSR on 10 February 1946	117
Figure 7.4. The results of tabulation of the lists of voters of the election to Supreme Soviet of the USSR on 10 February 1946 and the estimate of the age-sex structure of the Russian Federation population on the same data in comparing	118
Figure 7.5. The results of tabulation of the lists of voters of the election to Supreme Soviets of the republics on 16 February 1947 and the estimate of the age-sex structure of the Russian Federation population on the same data in comparing	118
Figure 7.6. The results of tabulation of the lists of voters of the election to Supreme Soviet of the USSR on 14 March 1954 and the estimate of age-sex structure of the Russian Federation population on the same data in comparing	122
Figure 7.7. Number of new-born in Russia	124
Figure 7.8. Number of deaths at age 1 and over	128
Figure 7.9. Infant mortality rate in Russia	129
Figure 8.1. Population pyramid of the Russian Federation population by the 1897 Census data	131
Figure 8.2. Life expectancy dynamics in Russia	134
Figure 8.3. Fertility dynamics in Russia; number of birth by an indicated age	137
Figure 8.4. Decrease of the size of age-sex population groups during the period of WWII. Population pyramid of the Russian Federation in the beginning of 1946	139
Figure 8.5. Age-sex mortality curves changing of the Russia's population in 1940-1958	143
Figure 8.6. Age fertility curve dynamics in Russia	145
